PARK'S FLORAL GUIDE

1902

NEW GLADIOLUS-FLOWERED CANNAS. [See Page 11.]

**GEO. W. PARK, Seedsman and Florist,
Libonia, Franklin County, Penna.**

The Most Popular Seed House in the World.

750,000 Flower-loving People As Patrons and Friends.

**SEEDS OF HIGHEST QUALITY—SOLD AT LOWEST PRICES.
A TRIAL ORDER INSURES CONTINUED PATRONAGE.**

N this age of progress, when the sharpest competition among the shrewdest, brightest minds exists in every sphere of business life, only those who adopt modern economical methods and treat their patrons liberally and satisfactorily can succeed. The fact that Park's Seed Establishment, founded in 1869, more than 30 years ago, has enjoyed an increasing trade every year since, and now has patrons throughout the world, numbering three-fourths of a million people, is evidence of the progressive policy of the proprietor. There is probably not another establishment in the world from which so many people are supplied by mail with seeds. To-day the business is more prosperous than ever before, and with wider experience, better facilities, and unrelenting energy the proprietor hopes to serve a much larger "army" of patrons, and gain their good will and friendship as well.

WHY YOU SHOULD BUY OF PARK.

First.—Because you can always depend upon Park's Seeds and Bulbs. When you buy of him you are sure of getting the best to be obtained—seeds and bulbs that will not only grow, but give the best results.

Second.—Because you are never deceived or disappointed when you buy of Park. The descriptions and illustrations in his catalogues are honest and true, and not designed merely to attract trade. Park would rather lose a sale than to make an unsatisfactory one. He wants the goodwill and friendship of every patron, and will make every honorable effort to gain and retain it. His wall-cards read, "Every patron must be fairly and satisfactorily served." You never regret giving him your orders.

Third.—Because Park sells at the lowest prices, and you save your money by giving him your orders. His prices are low, because his expenses are light. Owning his property where taxes are light, he is exempt from burdens of rent or heavy revenues; owning his printing office, electrotype foundry, fast presses, teams, etc., his various publications are issued at cost; packing his seeds by steam-power packing machines, which do the work of dozens of hand packers, the expenses of packing are hardly worth mentioning; contracting for the growth of seeds in large quantities with specialists in various parts of the world insures stock seeds of the best quality at specially low prices. All these combine to cut down expenses, and afford a profit at the very low quotations in his Catalogues.

Fourth.—Park fills all orders promptly, packing securely and sending by mail. If damaged or lost in transit he will send duplicates. If mistakes occur he will cheerfully correct them. He bears all expenses of mailing, and runs all risks. He will serve you just as faithfully and satisfactorily by mail as though you were at his establishment in person.

Cultural Instructions.—Every package of seeds is accompanied by cultural instructions—how to sow seeds, transplant and care for seedling flowers. Cultural hints are also given throughout Park's Catalogues and Booklets, and Park's Floral Magazine, (subscription 50 cents for five years) is a large floral monthly news letter about flowers and their culture. It is more important to know how to care for flowers than to procure seeds and plants. Without such knowledge spending time and money for choice seeds and bulbs is a waste. For this reason, when a sale is made, instructions are given free concerning treatment. To get this help and insure success, always order of Park.

Sending Money.—All sums of \$1.00 or more should be sent by Money Order, Registered Letter, Draft or Express order. Smaller sums can be forwarded in postage stamps. Thus sent all money is at Park's risk. See that the money sent covers the amount of your order. No discount can be made from prices quoted.

Your Address.—Please do not forget your Name, Post Office and State. Hundreds of orders come every year from persons who neglect to give their full address. If you fail to get your seeds in a reasonable time write again, and be sure to give your full address in your complaint. Without this your order cannot be filled. Always see that your letter is plainly addressed, sealed and stamped. Neglect of these things often gives a lot of trouble. Address

GEO. W. PARK, Libonia, Franklin Co., Pa.

The Seeds That Always Grow.

BY FLORENCE JOSEPHINE BOYCE, WASHINGTON COUNTY, VERMONT.

We'er looking forward to the time
When early robins sing,
And winter, gay with age and rime
Makes way for blushing spring;
For long before the Meadow Lark
Shall sing at eve, I know
Those little seeds will come from Park,—
The ones that always grow.

At the sound of Springtime's bridal train
Shall wake the drowsy bee,
The birds will hang their nests again
In each familiar tree;
While man from early dawn till dark
Will wield the garden hoe,
And greet the pack that comes from Park,
The seeds that always grow.

Were Mistress Mary living still,
And planting cockle shells,
Intent her garden beds to fill
With rows of silken bells,
From knowledge gained through ages dark,
She'd buy the best, I know,
And order them from Mr. Park,—
The ones that always grow.

The seeds that Congress sendeth hero
Are raised by hot debate,
And in our cooler atmosphere
Are slow to germinate;
And though we're grateful for the mark
Of courtesy they show,
We'll buy our garden seeds of Park,—
Because they always grow.

Park's Floral Guide for 1902.

Entirely Re-written and Enlarged, Illustrated, offering the Best Seeds and Bulbs at Bargain Prices. Issued by
GEO. W. PARK, Seedsman and Florist, LIBONIA, FRANKLIN CO., PENN'A.,
to whom all communications should be addressed.

A Few Words With Patrons.

DEAR FRIENDS:—It is more than thirty years since I began to raise and sell seeds and issue Catalogues and other floral publications. With me they have been very busy years, and I can scarcely realize their flight. A feeling of sadness steals over me when I reflect that many of the revered patrons of my early business life have passed over Time's River; but I rejoice to know that their places are filled by the esteemed younger members of the family, and the bond of friendship secured by faithful service and common sentiment has strengthened with the lapse of time.

My friends, I want your confidence and your friendship, as well as your patronage. The profits of trade do not satisfy the intelligent mind, or bring real happiness into the tradesman's life. The social and moral nature crave something better, and this is secured only through pleasant and helpful association. Day by day and hour by hour the happiness of life, in the home or in the halls of trade are ours, only when we use aright the time which Providence allots us. With me the letters which come from pleased patrons bring inspiration and enjoyment, and are not a small part of my service reward. They are, indeed, the mainspring to energy and industry, and promote greater earnestness and zeal in the vocation to which I am devoting my life.

My **FLORAL GUIDE** for 1902 has been entirely re-written, and contains many new and handsome engravings, made expressly for it. The seeds are quoted at low prices, but all of my offerings are first-class, and can be purchased with entire confidence. I never handle seeds of inferior quality. The best are none too good for my patrons, and I am enabled to supply the best at the ridiculously low prices quoted because of my superior facilities. Owning my own printing office, with electrotype foundry and fast presses my Catalogues and booklets are but a fraction of the cost of such publications of my competitors, and my seeds are neatly and inexpensively packed by machines which fill and seal, ready for mailing, about 60,000 packets a day. It will thus be seen, that with a moderate profit, insuring large sales, I can take low prices and still realize enough to satisfy me pecuniarily.

My friends, I am far more anxious that you should be satisfied than myself, for I am never satisfied till you are. Through my publications I try to assist you to make a wise selection, and to give such treatment in your floral work as will insure success. When your orders reach me I use every effort to have them filled promptly and satisfactorily, and to treat you just as I would if you were at my establishment in person, and had my personal attention. I bear losses, correct errors, refill orders when necessary, and in every way endeavor to please and satisfy you. If I fail kindly write me. Do not make your complaints to others. You will find me just as anxious to hear and help a complainant or discouraged one as to obtain and fill the orders of the successful.

Educated in an Agricultural College, owning a good library, and having given special attention to botany and horticulture during my entire life, I ought to be able to help my flower-loving friends in their troubles, and I cheerfully do so when I have the opportunity. Draw your chairs up near to me, my friends, and get better acquainted. My floral family is large, but you need not hesitate to join it, or to be a closer member. I have a cordial greeting, and a hearty welcome for every lover of the true, the good, and the beautiful. Let me hear from you, one and all. Florally yours,

GEO. W. PARK, Seedsman and Florist.

Libonia, Franklin Co., Pa., Jan. 25, 1902.

Park's Floral Magazine.

I would like everyone of my patrons to get and read **PARK'S FLORAL MAGAZINE** regularly. It is a monthly, devoted entirely to flowers, and always brimful of just such information as the flower cultivator needs to insure success and get the most enjoyment in floral work. It is illustrated, original, practical, and treats all phases of the work in which the flower culturist is interested. Every annual volume is an encyclopædia of floriculture, complete with index, a handy and useful reference. For more than 30 years this Magazine has been a successful guide to the cultivator of flowers, and it is better now than ever. More than 350,000 flower people get it monthly, and go by its teachings. Does it come to you? Subscription price 50 cents for five years. For special inducements see next page.

GEO. W. PARK, B. Sc., Editor and Publisher.

Libonia, Franklin Co., Pa.

TRIAL SUBSCRIPTIONS AND TRIAL SEEDS.

SPECIAL OFFER TILL AUGUST 1, 1902.

PARK'S FLORAL MAGAZINE for monthly floral advice, and Park's Choice Flower Seeds for beautiful flowers are not excelled in the world. I want everybody to know this by an acquaintance with both, and to this end make the following offer:

Park's Floral Magazine one year on trial, 12½ cents.
25 cents worth of seeds for trial, your selection, from this Guide, 12½ " 25 "

Total for trial Magazine and trial Seeds

The trial subscription and trial seeds must both be ordered together. If already a subscriber you can have the Magazine addressed to some friend who will appreciate it. No more than 25 cents worth of seeds will be mailed upon these terms (half price), and the trial subscription must always accompany the order—that is, the full amount, 25 cents for both Magazine and Seeds, must be remitted.

IT WILL PAY YOU TO GET UP A CLUB.

I would like to have a large club of trial subscriptions and orders from your vicinity, and therefore make you these offers:

For five trials, Magazine and Seeds, \$1.25, I will mail to you Park's Study of Chrysanthemums, a magnificent work of art painted by Paul de Longpre, and perfectly reproduced in colors by lithography. I will also include a fine collection of Choice Flower Seeds, ten packets, my selection.

For Ten Trials, Magazine and Seeds, \$2.50, I will mail to you Park's Study of Chrysanthemums, a packet of 25 Chrysanthemum seeds, value 25 cents, saved by Mrs. Shepherd, the California specialist, from her splendid collection; also the collection of choice Flower Seeds, 10 packets, my selection. If preferred I will allow you to select 25 cents worth of seeds from this Guide instead of the Chrysanthemum seeds, but the collection of 10 packets must be of my selection.)

For Fifteen Trials, Magazine and Seeds, \$3.75, I will mail to you Park's Chrysanthemum Art Study, the collection of ten packets seeds, my selection, and also 75 cents worth of choice seeds which you may select from this Guide.

For Twenty Trials, Magazine and Seeds, \$5.00, I will send Park's Study of Chrysanthemums, the collection of ten packets seeds, my selection, the packet of choice Chrysanthemum seeds, and \$1.00 worth of seeds, which you may select from this Guide. Or, if preferred, instead of the dollar's worth of seeds I will mail to you a watch, desirable for the kitchen or bedroom, a good time piece.

If you wish to get up a large club for cash send for my liberal terms, with blank lists, sample copies, catalogues, booklets, etc., which will be sent you free on application. I hope my friends will go to work early, and secure subscriptions and orders before the people are supplied with periodicals and seeds. I feel certain of a permanent subscriber and patron when my Magazine and seeds are once introduced. Will you not, dear patron, secure for me a large club of subscriptions and orders in your vicinity this season? Kindly let me hear from you. Address

GEO. W. PARK, Libonia, Franklin Co., Pa.

Park's Superb Bedding Asters.

All varieties mixed, 4 packets 10 cents, 1 packet 3 cents.

BED OF PARK'S SUPERB BEDDING ASTERS, EDGED WITH CERASTIUM.

For a showy bed in autumn nothing can surpass Park's New Bedding Asters. The plants grow a foot high, are of sturdy, branching habit, and become a mass of superb, large double flowers of charming form and rich colors. That you may give these lovely Asters a trial I will supply seed for a bed six feet across, as follows:

For center, blue, 1 packet.....	3
Next to center, white, 1 packet.....	3
Next to white, fine rose, 2 packets.....	6
For edging, Cerastium Biebersteini, 2 pkts.....	6
Total.....	18 cts.

I will supply the six packets, enough for the entire bed, for only 15 cents.

Cerastium Biebersteini is a very pretty dwarf plant, with fine-cut foliage, almost white. It forms a splendid edging for the bed, and is always greatly admired. Full culture and planting directions mailed with the seeds. No finer display of flowers can be obtained for 15 cents than I offer. Obtained at ordinary retail prices the seeds would not cost less than 50 cents.

NOTE—You cannot spend 15 cents to better advantage than for seeds for this bed. A trial will convince you.

Park's Globular Chinese Primrose. ³

Special Mixture, 4 packets 10 cents, 1 packet 3 cents.

PARK'S NEW GLOBULAR CHINESE PRIMROSE.

For a glorious windowful of blooming plants in winter Park's New Globular Fringed Chinese Primroses surpass all other flowers. They are not difficult to start from seeds, grow in sun or shade, begin to bloom in six or seven months from time of sowing, and continue in bloom all winter. The plants are robust, and have fine foliage. The flowers are large, exquisitely fringed, and borne in great clusters, as my artist has endeavored to show in the above fine wood engraving. They are sure to bloom in winter. They will not disappoint you. The colors are very bright and distinct, and my special mixture contains them all. This strain of Chinese Primroses is unequalled, and should be grown by all who wish the finest flowers, and most profuse-blooming plants.

Pink, White, Flesh-color, Blue, Crimson and Striped, each..... 5
All colors in special mixture, finest quality, 4 packets 10 cents, 1 packet..... 3

Park's Star Flower, A Grand Novelty.

4 packets 10 cents, 1 packet 3 cents.

As a stately and showy bedding plant nothing of late introduction surpasses Park's Star Flower. It was discovered in the wilds of the Argentine several years ago, and was only popularized last season when I advertised it and sold about 35,000 packets. The plant is a wonder, and makes a gorgeous bed throughout the season. Miss Bertie Posten, who earned a gold watch last year for growing the largest plant, writes,

Mr. Park:—I grew Park's Star Flower this year, and must say it was the grandest of all my flowers. Everybody saw and admired it, and asked where I got it. It grew 10 feet 6½ inches high, with leaves 3 ft. 4 in. long and 2 ft. 8 in. broad. It had 251 big flower trusses, which bore, during the season, 10,380 beautiful, creamy Star-flowers, showy, and deliciously scented. Miss Bertie Posten, Wythe Co., Va., Nov. 15, 1901.

I have hundreds of reports similar to Miss Posten's, the statements of which are verified by her affidavit in my possession. You will be pleased with it. Don't fail to include it in your order. Price, 4 packets 10 cents 1 pkt. 3 cents.

Mr. Park:—I have raised flowers for 60 years, but never saw anything to equal Park's Star Flower. The plants are tropical, with immense trusses of sweet-scented flowers all season.—Mrs. J. Luick, Ionia Co., Mich., Nov. 15, 1901.

Park's Hardy Primrose.

Finest Mixture, all colors, 4 packets 10 cents, 1 packet 3 cents.

PLANT OF PARK'S HARDY PRIMROSE.

For a charming display of spring flowers get seeds of Park's Hardy Primrose and sow in a box in March, April, May or June. When well started set the plants where they are to bloom. They will soon become established, and will then take care of themselves, being perfectly hardy. The foliage is handsome, and the flowers showy, delicate in texture, rich and varied in colors, deliciously scented and produced in abundance.

White, Golden Yellow, Scarlet, Sulphur and Rose, each..... 5
 Splendid mixture, all colors, 4 packets 10 cents, 1 packet 3

 This splendid Primrose is represented in the above fine wood engraving, which was prepared expressly to give my patrons an idea of a plant in bloom. Everybody who has a garden should have this grand perennial.

Park's Everblooming Garden Pinks.

Mixed, 4 packets 10 cts., 1 packet 3 cts.

You all know the old-fashioned, clove-scented, hardy Garden Pinks which were so popular in earlier years. They are still beautiful and highly prized, but the Garden Pinks I here offer are far superior in size, doubleness and variety of colors, and equally as rich in fragrance, while they have the added merit of everblooming. Plants are easily started from seeds, are hardy, begin to bloom in early summer, and keep in bloom throughout the season. The flowers are exquisitely marked, come in double, semi-double and single form, and show many colors. Price, mixed, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park:—Who does not love the old-fashioned May Pink, like our mothers used to have? In the spring of 1900 I bought a packet of seeds of Park's Everblooming Garden Pinks, and although the season was so unfavorable

I saved eight plants, which bloomed last spring, and were all different, four double and four single. The flowers were just as fragrant as Carnations. Mr. Park's are an improvement on the old varieties, as they continue to bloom all the summer, and one of mine bloomed in November. I do not think I ever derived so much pleasure from such a small outlay of money, and the pleasure was shared by many of my friends. As these are perennials, they remain to gladden us year after year.—Mrs. L. L. Williams, Gates Co., N. C., Dec. 2, 1901.

PARK'S CHOICE Machine-Packed Flower Seeds.

ALWAYS FIRST QUALITY.

New Crop Offering for 1902. Warranted.

Fern-tree Acacia.

Price, 4 packets 10 cts., 1 packet 3 cts.

Acacia lophantha is one of the most beautiful foliage plants known. The elegant, fern-like leaves are freely produced the first season, the plant growing rapidly, and soon making an admirable display either as a pot or bedding plant. Grows from three to five feet high the first season, and blooms when older. It delights all who see it. Price, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park:—We never enjoyed a plant more than we did your *Acacia lophantha*. We let it grow straight, as we wanted a large tree, tied it to a long rod. It sent out branches from every leaf, without nipping, and every branch sent out side branches. It was a perfectly shaped tree, between six and seven feet high, covered with downy, yellow balls the second winter.—Mrs. Blane, Mass.

Ageratum in Variety.

Splendid mixture, 4 pkts. 10 cents, 1 pkt. 3 cents.

For a showy bed of white and blue flowers the *Ageratum* is unsurpassed. The flowers are in large clusters, and produced freely the entire summer. They like a sunny place. A. Mexicanum grows 18 in. high, and is fine for the background or center, while the Dwarf varieties may be grouped around. Desirable in winter, in pots. Easily grown. Set ten inches apart.

Mexicanum, blue.....	3	Imperial Dwarf, blue.....	3
Albiflorum, white.....	3	Dwarf White.....	3
Luteum, yellow.....	3	Swanley Blue, azure.....	3
Perfection Dwarf, large deep blue.....	3	Little Dorrit.....	3
Lasseauxii, pink.....	3	Conspicuum.....	3
Princess Pauline, new, blue with white center, very pretty.....	5		

Special mixture of all the above, 4 pkts. 10 cents, 1 pkt. 3 cents.

Mr. Park:—I raised your Dwarf *Ageratum* last summer. It was lovely—a perfect wall of delicate blue, which is so scarce among flowers, and which is so necessary in making up bouquets.—Augusta Oldfield, McPherson Co., Kas.

Alyssum.

4 pkts 10 cts., 1 pkt 3 cts.

Early and free-blooming annuals, with sweet-scented white flowers in showy clusters; bloom continuously when freely cut; showy for edgings and useful for bouquets.

Common Sweet, per oz. 25 cents.....	3
Little Gem, very dwarf, fine edging.....	3
White Carpet, trailing, very floriferous.....	3
The varieties mixed, 4 pkts 10 cents, 1 pkt 3 cents.	

Mr. Park:—Dwarf Sweet Alyssum is the most perfect edging plant I ever used. There is nothing to be compared with it.—Julia H. Howe, Plymouth Co., Mass.

<i>Abronia umbellata</i> , a succulent, sun-loving, Verbena-like plant; hush before sowing.....	3
<i>Adonis</i> , annual, plants grow a foot high; finely cut foliage and shining red flowers, mixed.....	3
<i>Ethionema grandiflora</i> , a handsome perennial; flowers rose, in long spikes.....	3
<i>Agrostemma coeli rosa</i> , 1 foot high; flowers rose and white, mixed.....	3
<i>Anemone coronaria</i> , showy flowers of various colors, mixed.....	3

Alonsoa.

Mixed, 4 pkts. 10 cts., 1 pkt. 3 cents.

Graceful and beautiful plants covered with showy bloom for months. Half-hardy annuals. Excellent for pots or for garden borders. Of easy culture. One foot high.

Mutisi, pink wit crimson center.....	5
Warscewiczii compacta, fine bright scarlet flowers.....	5
Linifolia gracilis, very graceful; flowers scarlet, in great abundance; fine for pots or borders; See Engraving.....	5
All sorts mixed, 4 packets 10 cents, 1 packet 3 cents.	

<i>Anagallis</i> , very pretty, free-blooming half hardy annuals. Like a dry, sunny place. Blue, crimson, scarlet, separate or mixed.....	3
<i>Anchusa</i> , perennials with rich blue flowers, mix'd.....	3
<i>Arnebia cornuta</i> , new; showy golden yellow with brown spots.....	3
<i>Artemisia annua</i> , grows 3 ft. high, with fern-like, fragrant foliage; known as Sweet Fern.....	3
<i>Asperula azurea setosa</i> , 9 in. high, branching, with pretty blue flowers in clusters.....	3

New Antirrhinum===Snapdragon.

Special mixture of all varieties, 4 packets 10 cents, 1 packet 3 cents.

ANTIRRHINUM—SNAPDRAGON.

Mr. Park:—Your Giant Fragrant Snapdragons are the finest Snapdragons I ever had. My plants bloomed well in summer, and removed to the window, they were lovely the next spring.—Ida Gray—Osborne Co., Kas.

Mr. Park:—I am very partial to your Giant Snapdragons. I start the seeds early, and they bloom beautiful all summer. If lifted in the fall they will bloom in the window during winter.—M. E. Callahan, Warren Co., Ia.

Mr. Park:—From seeds obtained from you 2 years ago I had a most beautiful bed of Snapdragons. I had seven varieties of blossoms, and they bloomed until frost came. The bushes spread over considerable space with their many spikes of lovely bloom.—Mrs. James G. Birchfield, Washtenaw Co., Mich.

Antirrhinum majus, better known as Snapdragon, has been wonderfully improved within the past few years, and is now one of our most showy and satisfactory garden flowers. The plants bloom freely and continuously the first season, and if not allowed to exhaust themselves seeding will endure the winter and bloom well the second year. The flowers are fragrant, borne on large spikes, and are rich in color, and many spotted and variegated as finely as a Calceolaria. A few spikes in a vase are admirable. Fine for either beds or pots. My seeds are the product of the best European growers, and my special mixture is unsurpassed.

GIANT VARIETIES (3 feet high).

White.....	5	Striped.....	5
White striped.....	5	Yellow with Orange...	5
Deep Scarlet.....	5	Yellow, striped Red...	5
Scarlet with tints.....	5	Scarlet white throat...	5
Carmine, white throat	5	Coral Red.....	5
Crimson.....	5	Yellow.....	5

Special mixture, 4 pkts. 10 cents, 1 pkt. 3 cents.

SEMI-DWARF VARIETIES (18 inches high).

Copper.....	5	Crimson.....	5	Orange and Rose, e'h	5

Special mixture, 4 pkts. 10 cents, 1 pkt. 3 cents,

Amaranthus.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

Showy plants both in foliage and flowers. Easily grown from seeds. Are brightest in a poor soil and sunny situation.

Quadricolor, new; foliage green, crimson and yellow in beautiful contrast. See engraving. 4 packets 10 cents, 1 packet..... 3

Tricolor splendens, Joseph's Coat improv'd 3

Salicifolius, fountain plant..... 3

Melancholicus rubra, red foliage..... 3

Caudatus, Love lies bleeding..... 3

Cruentus, Prince's Feather..... 3

Bicolor ruber, bright carmine scarlet..... 3

Amabilis tricolor, very showy..... 3

All sorts, special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

Mr. Park:—I have sown your seed for six years and have always found them, and all plants and bulbs you sent me, exactly what they were represented to be.—E. A. Vandevanter, Chase Co., Kas.

Mr. Park:—I have bought all my flower seeds from you for five years. I find them the very best I have ever used. They are always fresh, and never fail.—Mrs. M. Guest, Jefferson Co., Kas.

Mr. Park:—I have had such splendid success with your seeds, that I can recommend them to all flower lovers.—Louise J. Myers, McLean Co., Ill.

AMARANTHUS QUADRICOLOR.

Splendid Double Asters.

Complete mixture of all varieties and colors, 4 pkts 10 cts., 1 pkt 3 cts

DWARF CHRYSANTHEMUM ASTER.

COCARDEAU OR CROWN ASTER.

The Splendid Double Asters I offer are among the most beautiful flowers grown from seeds. They are of easy culture, and charming for either beds or pots. They grow in any deep, rich soil, in a sunny exposure, and bloom gorgeously in autumn. A black beetle sometimes eats the flowers, but is easily overcome by sprinkling the plants with water in which is stirred Paris green, a half tea-spoonful to a gallon of water. The seeds I offer are of the highest quality, and can always be depended upon for a grand display of double blooms, while my special mixture contains all the colors in careful proportion. They cannot be surpassed.

New Marvel Aster.

Price, 4 pkts 10 cts., 1 pkt 3 cts.

A globe-flowered Aster two feet high, bearing large, very showy flowers, white with a blood-red center. The odd contrast in colors always attracts attention and admiration. See engraving.

Ostrich-feather Aster.

Mixed, 4 pkts 10 cents, 1 pkt 3 cents.

Two feet high; flower large, long-petaled, irregular, not unlike Japanese Chrysanthemum. A showy, handsome sort, much admired.

White, white tinted rose, light yellow, rose, mauve, crimson, white tinted blue, azure, dark violet, light blue and white, each 5
All colors, splendid mixture, 4 pkts 10 cts., 1 pkt 3

Mr. Park:—Last spring I purchased quite a variety of flower seeds of you, and as they were inexpensive I was surprised at the beauty of my flower bed. I was especially delighted with the Feather Asters. They were beautiful.—Mrs. S. A. Slipper, Clinton Co., Ind.

Grasshoff's Perfection Aster.

Special mixture, all colors, 4 pkts 10 cts., 1 pkt 3 cts.

This is the finest incurved Aster in cultivation. Plants grow two feet high, and bear from 20 to 30 huge, globular flowers, very symmetrical and beautiful. One of the best. See engraving.

White, crimson, scarlet, rose, azure, deep blue, violet, rose and white, scarlet and white, blue and white, purple-violet, white and carmine, etc., separate, each 5
All the colors mixed, 4 pkts 10 cents, 1 pkt 3

Cocardeau or Crown Aster.

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

Plants 1½ feet high, bearing flat petaled double flowers three inches across, and of all colors with a white center, as shown in the above engraving.

Rose, carmine, crimson, red, blue and violet, separate, each 5
The same in special mixture, 4 pkts 10 cents, 1 pkt 3

Park's Silver Cloud Aster.

4 packets 10 cents, 1 packet 3 cents.

PARK'S SILVER CLOUD ASTER.

Victoria Aster.

Special Mixture, 4 pkts. 10 cents, 1 pkt. 3 cents.

This is one of the finest varieties. Plants 18 inches high, well branched, erect, and bearing splendid double flowers, well recurved petals, and in all the rich colors, many exquisitely tinted. Make superb pot-plants for exhibition.

White, light yellow, carmine, light blue, indigo blue, reddish lilac, rose, rose tipped, bright red, crimson, white and blue, brown violet, Peach, each 5
All colors mixed, 4 pkts. 10 cts., 1 pkt. 3

Queen of the Earlies.

Special mixture. 4 pkts. 10 cents, 1 pkt. 3 cents.

The earliest Aster. Flowers very double, of many colors. Fine for beds or pots.

White, rose, crimson, light blue, dark blue, each per 1/4 oz. 50 cents, per packet..... 3
All colors mixed, 4 pkts. 10 cts., 1 pkt..... 3

Mr. Park:—We grew your Queen of the Earlies Aster in abed, also some in pots. They were beautiful double flowers, each plant hanging full of bloom. The seeds were all good. We had many colors, and they made a fine display.—Mrs. W. A. Benton, Lawrence Co., Ind.

Park's Yellow Quilled Aster.

4 packets 10 cents, 1 packet 3 cents,

This is an admirable variety, growing two feet high, branching, and bearing large, double quilled flowers of a fine lemon yellow. It is the best yellow Aster to date.

Mr. Park:—Have any of your patrons ever raised Yellow Asters? The writer grew some last summer, and they were grand—almost as deep in color as the Golden Glow.—Mrs. B. F. Snyder, Marshall Co., Ind.

New Jewel Aster.

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

A fine variety, two feet high. Flowers short-petaled, large, full-double, as round as a ball, and freely produced.

White, apple-blossom, deep rose, scarlet, scarlet and white, crimson, azure, blue and violet, each 5
All colors, special mixture, 4 pkts 10 cts., 1 pkt..... 3

This superb New Aster grows a foot high, and is a mass of large, double, snow-white flowers, as shown in the engraving. It is beautiful in pots, showy in a bed, and charming in bouquets or vases. I can also supply this fine Aster in colors, as follows:

Rose, light blue, brown red, peach bloom, white passing to rose, white passing into lilac, apple blossom, violet red, each, per packet..... 5
All colors, special mixture, 4 pkts 10 cts., 1 pkt 3

Mr. Park:—I got a packet of your Silver Cloud Aster seed last summer. They were really very fine, and admired very much by everyone. I cut hundreds of blooms. They blossomed a long time.—Mrs. Jno. Lamount, Hampshire Co., Mass.

Park's Scarlet Triumph Aster.

4 packets 10 cents, 1 packet 3 cents.

An exceedingly attractive Aster, about 10 inches high, each plant bearing 30 to 40 handsome flowers about three inches in diameter, rich, deep scarlet, incurved petals, and of faultless form. Other varieties are:

White, purple, violet carmine and variegated, each 5
The same in fine mixture, 4 pkts 10 cents, 1 pkt 3

Mr. Park:—My Triumph Asters from your seeds, sown April 1st, made the finest showing by August 20th I ever saw. The flowers were of the deepest, richest scarlet color, and continued in full bloom until killed by frost.—Mrs. A. B. Woodsey, Caldwell Co., Mo.

Dwarf Chrysanthemum Aster.

Special mixture, 4 pkts 10 cents, 1 pkt 3 cents.

One of the best Asters for bedding purposes and for pots. Plants grow a foot high, are stiff, erect, branch well and are very free-blooming. The flowers are flat petaled large, and of many colors. Late blooming. See engraving on preceding page.

White, 1/4 oz. 75 cts.; pkt. 5 | Rose, 1/4 oz. 75 cts.; pkt. 5
Crimson, 1/4 oz. 75 cts.; pkt. 5 | Scarlet, 1/4 oz. 75 cts.; pkt. 5
Light blue, 1/4 oz. 75 cts.; p. 5 | Dark blue, 1/4 oz. 75 cts.; p. 5

Carmine and white, Brick Rose and white, Brick Rose, Cinnabar Scarlet and white, Fiery Copper and white, Claret (needle-shaped), Light Blue and White, Indigo on White ground, Dark Blue and white, White turning to Azure, White turning to rose, Flesh color, Peach Blossom, Brilliant rose, Rose and white, Carmine, Fiery Scarlet, Fiery Scarlet and White, Coppery Scarlet, Lilac and White, Red Lilac and white, Brown Red and White, Purplish Violet, Lilac. Each per packet..... 5
All colors, special mixture, 4 pkts. 10 cts., 1 pkt..... 3

Boltze's Dwarf Bouquet Aster.

Finest mixed, 4 packets 10 cents, 1 packet 3 cents.

A very dwarf sort, four to five inches high, forming little bouquets of double flowers of many colors.

Vicks Branching Asters, all colors mixed..... 5
Washington, large, all colors mixed..... 5

Superb Double Balsams.

9

Tall and Dwarf, all colors, special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

The Double Balsams are beautiful, easily grown flowers, blooming in the garden abundantly all summer. The tall kinds grow three feet high, and the dwarfs a foot. They make fine hedges in the garden, and are lovely as pot plants. A little pruning is often beneficial. My Balsam seeds are the best obtainable.

Park's Prize Camellia-flowered Balsams.

All colors in special mixture, 4 pkts. 10 cents, 1 pkt. 3 cents.

This race of Balsams is unsurpassed. Plants grow from two to three feet high, branch, and become wreaths of rich, waxy bloom. The flowers are of huge size, double to the center, and are of all shades from white to dark crimson, while many are beautifully spotted and variegated. If you wish to grow but one variety this is the one to get. The flowers are exquisite when arranged in a dish. I can supply the following colors:

Pure white.....	5	Lilac.....	5
Pure scarlet... 5		Violet.....	5
Crimson..... 5		Rose spotted... 5	
Light yellow.. 5		Scarlet spotted 5	
White reflect- ing rose..... 5		Violet spotted 5	
Salmon rose... 5		White reflect- ing lilac.. 5	

PARK'S PRIZE CAMELLIA-FLOWERED BALSAM.

Mr. Park:—We were delighted with your lovely Camellia-flowered Balsams. They were just as pretty as Tea Roses, and made lovely plate bouquets. Their colors and shadings were most beautiful, and they were so large and dainty.—Mrs. James G. Birchfield, Washtenaw Co., Mich.

Mr. Park:—To be sure of flowers get Park's Prize Camellia-flowered Balsams. Almost every seed grows, and such beautiful flowers, double as a Rose. They come in many colors, some spotted, others striped, and others in tints from the purest white to the richest red and purple. I had two pure white ones last summer, yet the colors were not alike. They like rich soil, but do well anywhere.—Mrs. Carl Kruse, Plymouth Co., Iowa.

Mr. Park:—Your Prize Camellia-flowered Balsams were fine—so double, like little Roses. I had a great variety of colors, also shaded and spotted.—H. A. Rosenkrans, Whiteside Co., Ill.

OTHER VARIETIES.

Double Dwarf Balsams , effective little plants. Twelve varieties of plain and six of spotted, each	5
Dwarfs in special mixture, 4 pkts. 10 cents, 1 packet	3
Double Rose-flowered , 12 colors, separate, each	5
The varieties mixed, 4 packets 10 cents, 1 packet....	3
Double Spotted Balsam , 12 colors, separate....	5
The sorts mixed, 4 packets 10 cents, 1 packet.....	3
Victoria , satiny white, dotted scarlet.....	5
Carnation striped , mixed, 4 pkts 10 cents, 1 pkt	3
Blood Red , very double.....	5
Solferino , white, spotted and striped.....	5
Balsams , all sorts, mixed, 4 packets 10 cts., 1 packet	3

DISH OF BALSAM FLOWERS.

Bellis--Giant Double Daisy.

Finest mixed, 4 packets 10 cents, 1 packet 3 cents.

Double Daisies are lovely edging plants, easily grown from seeds, and blooming freely the first season, if started early. The plants are hardy, and continue for several years, blooming early in spring, and almost continually through the season. Fine also in pots, and bloom well in a cool room in winter. I offer seeds only of the finest large-flowered double sorts.

Giant White, very large, double flowers, pure white in great profusion.....	5	Giant Rose, shades of red varying to carmine, very free.....	5
Finest mixed, 4 packets 10 cents, 1 packet 3 cents.			

Mr. Park:—I think every seed of the packet of Double Daisy from you came up, and the plants were soon just loaded with buds and blossoms, very double, in shades of pink and pure white.—Mrs. G. Cobligh, Middlesex Co., Mass.

Bartonia aurea , 2 feet high, with showy yellow flowers.....	5
Borecole , ornamental cabbage, fine for an outdoor winter bed.....	5

Bidens atrosanguinea , the "Black Dahlia", showy dark crimson bloom.....	5
Brachycome , Swan River Daisy, pretty flowers of various colors, mixed.....	3

New Floriferous Calliopsis.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

NEW FLORIFEROUS CALLIOPSIS.

Mr. Park:—Your new compact Calliopsis, gold and brown is just fine. This is a favorite of mine, and always reminds me of a butterfly's wing.—H. M. Jenko, Wayne Co., Mich.

Mr. Park:—I have grown your Calliopsis from seeds. It is one of the most graceful and beautiful of seed plants. It is easily grown and should have a place in every garden. I would advise everyone to try it.—Mrs. H. Van Gorden, Hamilton Co., O.

Large-flowered Calendula.

Mixed 4 pkts. 10 cts., 1 pkt. 3 cts.

Calendula, sometimes known as Pot Marigold, is a beautiful hardy annual, blooming freely throughout the season, and rivaling the Chrysanthemum in autumn, often showing its golden flowers above the early snows of winter. The plants make a showy border in beds, always cheerful, always admired.

Primrose Yellow.....	5	Yellow striped gold.....	5
Golden Yellow.....	5	Sulphur and Yellow.....	5
Special mixture, all the large-flowered sorts, 4 pkts			
10 cents, 1 packet.....	3		

LARGE-FLOWERED CALENDULA

<i>Cacalia</i> , Flora's Paint Brush; hardy annual; plants a foot high; flowers yellow and scarlet, brush-like, on long, slender stems, mixed.....	3
<i>Calandrinia</i> , succulent plants with showy white, rose and carmine, cup-like flowers; mixed.....	3
<i>Calciflora pinnata</i> , a pretty annual with yellow flowers.....	3
<i>Callirhoe</i> , Trailing Hollyhock, large, showy flowers; trailing hardy plants; mixed colors.....	3
<i>Campanula</i> , annual, Venus Looking Glass, pretty summer flowers for beds; bloom early and freely; six inches high; white, blue, violet, mixed.....	3
<i>Cannabis gigantea</i> , the giant Hemp; grows eight feet high; Ornamental foliage plant; seeds good for Canary birds.....	3
<i>Carduus Marianus</i> , a thistle-like plant of easy culture, pretty; variegated foliage.....	3
<i>Carthamus tinctorius</i> , the garden Saffron; five feet high with showy yellow flowers.....	3

<i>Centaureidum Drummondii</i> , an annual a foot high, with yellow Aster-like flowers.....	3
<i>Cerinth</i> , honey plants; annuals with yellow and white flowers; mixed.....	3
<i>Clarkia</i> , showy, easily-grown annuals of many colors, and double and single. Special mixture, 4 packets 10 cents, 1 packet.....	3
<i>Cleome speciosa</i> , purple, spiker-like, showy flowers at tips of branches; 3 feet high.....	3
<i>Collinsia</i> , half-hardy annuals a foot high, flowers in profusion, white, lilac and purple. <i>C. verna</i> , sown in autumn is beautiful; mixed colors.....	5
<i>Collomia</i> , a handsome annual, scarlet flowers.....	5
<i>Commelina coelestis</i> , blue and white flowers, pretty but fragile, mixed.....	3
<i>Cosmidium Burridgeanum</i> , a composite plant with showy yellow flowers.....	3
<i>Crepis</i> , rather showy, a very easily grown annual; yellow, white and pink, mixed.....	3

Candytuft in Variety.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

Old, popular and beautiful hardy annuals. The plants grow a foot high, and bear great tufts of showy bloom. A member of the Cress family. Sow where the plants are to bloom, very early in the spring, and thin till six or eight inches apart. The white Candytuft Amara makes a gorgeous display when seeds are sown in the fall. The flowers of all the varieties are exceedingly attractive in a bed, and fine for cutting.

Amara, oz. 10 cts.	5	Rocket, white.....	5	Empress, large.....	5
Odorata, sweet.....	5	Carters Carmine.....	5	Flesh color.....	5
Tom Thumb, Dwarf	5	Lilac.....	5	Dark Crimson, fine	
Rose Cardinal.....	5	Dwarf Hybrid m'd	5	flowered sort.....	5

New Giant, Hyacinth-flowered, immense spikes, large flowers, very showy, white; see engraving; 4 packets 10 cents, 1 packet..... 3

Special mixture of all sorts, oz. 10 cents; 4 pkts 10 cts., 1 pkt..... 3

Mr. Park:—Your seeds of the new Giant Candytuft grew well, and the flowers were much larger than any I ever raised before. What I liked best in them, they were continuously in bloom.—Mrs. A. D. Kint, Franklin Co., Kas.

Mr. Park:—The Giant Rocket Candytuft seed that I got of you this year I put in the ground the first of May, and before I hardly knew it I had a bed of the most beautiful white flowers I ever saw.—Mrs. Oscar W. Hall, Branch Co., Mich.

Mr. Park:—I have had great success with your seeds. I never saw such grand spikes of Candytuft as I had. I think every seed grew and every plant blossomed.—R. W. Burten, Cowley Co., Kas.

Mr. Park:—Every person who raises flowers should try one packet of your Hyacinth-flowered Candytuft. The seeds start readily, and the plants are strong and quick in growth. The plants are snow-white and beautiful. The plants in masses or in borders are very showy.—Mrs. Ed. Fought, Neosho Co., Kas.

GIANT CANDYTUFT.

New Gladiolus-flowered Cannas.

Finest mixture, 4 packets 10 cents, 1 packet 3 cents.

These new Cannas are rather dwarf, elegant, showy foliage plants, and above the foliage are borne huge trusses of large, snowy, Gladiolus-like flowers of many colors, as shown on the title page of this GUIDE. They are gorgeous in beds, and useful for large pots. Seedlings bloom well the first season, started early, and the roots may be wintered in a dry room or cellar, and used for bedding from year to year. My seeds are direct from the originator of these grand Cannas, and cannot be surpassed. Special Mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

Mr. Park:—Last February I got a packet of your Gladiolus-flowered Canna seeds. About the 20th I filed the seeds, soaked them 24 hours, then planted in roads earth. In less than a week I had twelve nice plants. They grew fast like field corn in June. About the middle of March I put them in condensed milk cans, and kept them there until the middle of May, then bedded them, out. They blossomed before the old tubers did, and some of them were the finest I ever saw. Everyone who came here would say, "Oh, where did you get those beautiful Cannas?"—Mrs. Ellen Harris, Ingham Co., Mich.

CANNA.

Capsicum---Peppers.

Complete mixture, 4 pkts. 10c., 1 pkt. 3c.

The Fancy Peppers are very ornamental either as house or garden plants. They are easily grown, and the fruits are so abundantly produced, and so bright and attractive that they are always admired. Some are long, some round, some nosed, and some twisted and wrinkled, as shown in the illustration, while they vary in color from white through the shades of red and yellow and black.

Little Gem.....	5	Prince of Wales.....	5
Tom Thumb.....	5	Cardinal.....	5
Cayenne.....	5	Celestial.....	5
Cherry Red.....	5	Cherry Red.....	5

CAPSICUM—FANCY PEPPER.

Chili Red, Elephant's Trunk, Golden Dawn, Kaleidoscope, Large Bell, Long Red, Long Yellow, Monstrous Red, Monstrous Yellow, Procopis Giant, Red Cluster, Red Spanish, Ren Squash, Ruby King, Scarlet Maddaloni, Yellow Noera, Yellow Squash, Bull-nose. Separate colors, each per packet..... 5

All sorts, special mixture, 4 packet 10 cents, 1 packet..... 3

Mr. Park:—Those who wish something out of the ordinary should send for several packages of your mixed seeds of Peppers as I did. I raised about fifty plants, and a large bed of them in the flower-garden, and they were a perfect kaleidoscope of colors, the yellow ones slowly turning crimson, the shiny black turning to orange, and the glossy red ones in size from a pea to the large bullnose, and useful for pepper-sauce and cooking. They were interesting and beautiful.—Mrs. J. Jasper, Napa Co., Cal.

Carnations==Hybrid Early-flowering.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

MALMAISON CARNATION.

The New Hybrid Carnations bear large double flowers, are of many rich colors, and are delightfully fragrant. Seedlings bud in from four to six months after sowing, and bloom until after frosts. If potted early, so that the plants get well started, they will bloom well in winter. I offer only seeds of first quality, and my mixtures are not surpassed.

Malmaison, the new giant-flowered variety. The plants are robust, and the large flowers are full-double, as shown in the engraving, of many exquisite colors and tints, and deliciously scented. Splendid mixture, 4 packets 10 cents, 1 packet 3 cents.

Gullaud, a superb variety of rapid growth; flowering early from seeds; my seeds are excellent, and will produce 90 per cent. of fine double flowers, many of them shades of yellow, mixed 5
Comtesse de Paris, yellow, very early, mostly true from seeds 5
Ohabaud, begins blooming in seven months from seed, flowers large, almost perfect in form, fragrant and very double, m'd 5
French Dwarf White, new, fine... 5
Earliest French Giant, immense double flowers, early blooming; a new and superb sort..... 6
Snowflake, a lovely pure white variety, fine for the cemetery or for garden beds..... 5
Yellow Ground, beautiful varieties 5
French Cyclops, a hybrid between *Dianthus Heddewigi* and *D. caryophyllis*, fragrant, showy 5

Margaret, the earliest of the Hybrids; plants begin to bloom in four months from seeds, and bear splendid double fragrant flowers of many rich colors. I offer only the improved, compact strain, and my seeds are of the finest quality. Mixed, 4 packets 10 cents, 1 packet..... 3
New Hybrid Carnations, all varieties, mixed, 4 packets 10 cents, 1 packet..... 3

Mr. Park:—I must say a few words in praise of raising Carnations from seeds. I planted a packet of your seeds last March in the house, set some in the garden in May, and the rest I potted. Those I set in the garden were in bloom the last of August. The ones I potted are in bloom now in the house. I had some very handsome varieties. A white one was extra large, pure white and fragrant.—Mrs. F. C. Farington, Essex Co., Mass.

Mr. Park:—Carnations are my special favorites. The plants are easily raised from seeds. I never had so much pleasure with any plants as with several Carnations of different colors I raised from seeds. The flowers were lovely, and so delicately scented.—Mrs. G. W. C., Jefferson Co., Kas.

Mr. Park:—My Carnations from your seeds began to bloom in September, and were lovely. I had five different colors.—Mrs. G. Cobleigh, Middlesex Co., Mass.

Celosias in Variety.

Special mixture, comb and tasseled, 4 pkts 10 cts., 1 pkt 3c.

The Celosias are beautiful, easily grown, half-hardy annuals. They begin to bloom when small, and continue to make a fine display till the frost of autumn. Fine for beds or pots.

New Giant Dwarf Coxcombs.—These are the finest varieties of Celosia cristata. They grow a foot high, and produce enormous combs of many rich colors. A bed of them makes a fine show on the lawn, and the plants are also fine in pots. They are showy exhibition plants. My seeds are only from selected combs, and are unsurpassed.

Blood Red.....	5	Orange.....	5	Rose.....	5
Crimson.....	5	Purple.....	5	Sulphur.....	5
Empress, bright crimson, dark foliage, a very fine sort	5				
Variegated, taller than the above.....	5				
Japonica, scarlet, two feet high.....	5				

Coxcombs in special mixture, containing seeds of all the above, 4 packets 10 cents, 1 packet..... 3

Plume-flowered Celosias.—These are varieties of *C. pyramidalis*. They grow two feet high, and bear large, feathery, pyramidal plumes. Crimson, scarlet, yellow and violet, each, per packet., 5 cents. Special mixture of these colors, 4 packets 10 cents, 1 packet 3 cents.

Celosias in fine mixture, embracing all the Coxcomb and Plume-flowered sorts, 4 pkts. 10 cts., 1 pkt. 8 cts..

Mr. Park:—From seeds of Giant Dwarf Coxcomb bought of you in '98, I had an 8-foot circular bed, which for show was hard to beat. The combs, some of which were 14 inches broad, were of such a dazzling velvety crimson, and so perfect as to be the wonder and admiration of all visitors.—E. B. Shusser, St. Joseph Co., Ind.

COXCOMB-FLOWERED CELOSIA.

Cosmos, Early-flowering.

Finest Special Mixture, 4 packets 10 cents, 1 packet 3 cents.

Fine, half-hardy annuals, bearing showy, daisy-like flowers of various colors on long stems. The early-flowering kinds I offer are more dwarf than the older sorts, but are not always true from seeds. They are very floriferous and attractive, and make a showy and beautiful mass of bloom in autumn. Sow where the plants are to stand when the apple is in blossom. Plants should stand a foot apart:

Rose, White, Dark Red, Dawn, each per pkt.....	5
Yellow, a species of Bidens.....	5
Mammoth, tall, fine.....	5
Finest mixture, 4 packets 10 cents, 1 packet.....	3

Mr. Park:—To out-wit Jack Frost I sowed your Early-flowering Cosmos last May, transplanting to the perennial garden, and pinching out the tops after well started to make them bushy. They thrived, and all fall I enjoyed the airy blooms. Several plants bore pink and crimson flowers, but I prefer the white blooms. I shall try more next season.—Savillah T. Hinrichsen, Morgan Co., Ill.

Mr. Park:—Among the seeds received from you last spring was a packet of your Early-flowering Cosmos. The plants grew finely and bloomed well, showing delicate colors of pink, yellow and pure white. The foliage was beautiful, being fine-cut and dark green. My neighbors thought the plants lovely, and were anxious to know their name, as they were new to them.—Mrs. A. A. Aikin, Middlesex Co., Mass.

Mr. Park:—I planted a packet of your Early-flowered Cosmos last spring as an experiment, as I had formerly only grown the late variety. I think every seed germinated. The plants commenced blooming in April when only six inches high, and continued growing and blooming until we moved in July.—Mrs. Marshall, Fresno Co., Cal.

COSMOS, EARLY FLOWERING.

Chrysanthemum===Annuals.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

The Annual Chrysanthemums make thrifty, bushy plants that are covered with bright, showy single and double flowers from early in the season until after severe frosts. The plants are fine for beds in the garden or for pot plants. They grow about two feet high, and should stand eight or ten inches apart. Started from seeds in summer they make fine winter-blooming plants.

Double and Single Dahlias.

Complete Special Mixture, 4 packets 10 cents, 1 packet 3 cents.

GROUP OF DOUBLE DAHLIAS.

Complete mixture, embracing the above choice double and single sorts, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park:—I bought of you last spring a paper of Single Dahlia seeds, from which I raised 15 vigorous plants, which were greatly admired by all who saw them. Every plant bore different colored flowers, which in beauty and delicacy of tint were hard to surpass. One plant bore two kinds of flowers—some solid and others variegated. From these plants I have about 100 tubers for planting next spring. No one who never tried it has any idea of the ease with which Dahlias can be raised from seeds.—John T. Irion, M. D., Editor Paris Post Intelligencer, Paris, Tenn., Nov. 18, 1901.

Mr. Park:—I sowed seeds of your Double and Single Dahlias in a window box last February, and raised twelve sturdy plants. Oh, what a grand variety I had! Nearly all were double. Some bore four different colors, and one plant showed flowers of six different colors. I am much pleased with your seeds.—Mrs. George Sitterle, Wayne Co., N. Y., Nov. 12, 1901.

Mr. Park:—I have grown your choice Dahlias for a number of years, and think them the most beautiful of all flowers.—D. L., Essex Co., Mass.

Mr. Park:—I send a package of seeds of your Single and Double Dahlias, and all came up. I had sixty-five fine plants, and such a variety of colors and markings I never saw before. I was not a lover of Dahlias, but now I think there is nothing like them. Plants started April 15th bloomed July 1st.—Mrs. Wels, Steele Co., Minn.

Mr. Park:—I sent to you last spring for seeds of Single and Double Dahlias, and I certainly had a beautiful variety. I cheerfully recommend your Dahlia seeds.—J. W. Meng, LaFayette Co., Mo., Nov. 18, 1901.

Delphinium--Larkspur.

Complete Mixture, 4 packets 10 cents, 1 packet 3 cents.

The annual kinds of Delphinium, known as Larkspur, embrace some of our finest garden flowers. They are mostly double, free-blooming, borne in spikes, and of all shades from white to crimson, and through the shades of blue. Sow the seeds where the plants are to bloom, either in fall or early spring, and thin out as the plants grow.

*Giant Dwarf Rocket or Hyacinth-flowered, double, mixed.....	3
Tall Rocket, double, mixed colors, and pure white, each.....	3
Stock-flowered Tall Branching, double, mixed colors.....	3
Lustrous Carmine.....	5
Ranunculus-flowered, double, mixed.....	5
Dwarf Candelabrum-formed, mixed.....	5
Emperor, double, finest mixed.....	5
PERENNIAL LARKSPURS, BLOOMING FIRST SEASON.	
Cashmerianum, blue.....	5
Chinense, large-flower'd, blue.....	5
Large-flowered, white.....	5
Complete mixture of all the above sorts, 4 pkts. 10 cts., 1 pkt.	3

Early-flowering Delphiniums.—These are hardy perennials, but bloom quite early the first season from seeds, and will bloom for several seasons. The flowers are mostly white and fine shades of blue. They are fine for cutting. The plants are dw'f and bloom freely all season. Finest mx'd, 4 pkts 10c, 1 pkt 3

Mr. Park:—Delphiniums are with us nearly all the year round. They grow two feet high, and all summer are covered with their odd-shaped bloom in all shades of white, pink and blue.—Mrs. F. Smith, Tomp. Co., Tex.

Datura Wrighti, very large, trumpet-like, lilac flowers all summer; fragrant..... 3

Fastuosa, double, white and purple, mixed..... 3

Humilis flava fl. pl., fine double yellow flowers 5

All varieties mixed, 4 packets 10 cents. 1 packet 3

Dianthus deltoides, blood red, dwarf Pink 3

Didiscus corymbosus, blue, long-tubed flowers in umbellate clusters; a pretty little annual..... 3

Dracopcephalum moldavicum, bee Balm, blue and white mixed..... 3

EARLY-FLOWERING DELPHINIUM.

NEVER DISAPPOINTED.—Dear Mr. Park:—I have been buying seeds and bulbs of you for years, and find them always satisfactory. Your Asters are grand; your Double Petunias large and full, and very beautiful. And so I might speak of all you have sent me. I am never disappointed.—Mrs. L. Graser, San Francisco, Cal., Nov. 19, 1901.

Dianthus Chinensis.

Complete Mixture, Single and Double, all colors, 4 pkts. 10c, 1 pkt. 3c.

Dianthus Chinensis embraces the beautiful Chinese, Japanese and Imperial Pinks, all of which bloom well the first season, endure the winter, and make a fine display the second season. The plants are easily grown from seeds, and make a showy bed, set eight inches apart. Fine for cutting. The white varieties are often used for cemetery planting. The flowers of the Japanese sorts, known as *D. Heddegi*, both plain and fringed, are larger and brighter than those of the older kinds, but all are showy and very beautiful.

DIADEM PINK.

Diadem Pinks, splendid hybrids of *D. Heddegi*. Immense double flowers, richly colored and marked, as shown in engraving. One of our finest Pinks. New white, light ground with fine markings..... 5

Red, Rose and white with dark velvet crimson markings, including new white, very beautiful, 4 packets 10 cents, 1 packet..... 3

Mixed, New Dwarf Diadem Pink..... 5

Striped Pinks.—I offer a fine selection of Striped Pinks, shown in the little engraving. These are variously colored and variously striped, and all large, double-flowered, blooming the first season. They are splendid Pinks. Mixed, 4 packets 10 cents, 1 packet..... 3

All of the above Pinks, single and double, in complete special mixture, 4 packets 10 cts., 1 pkt. 3

Mr. Park:—From the packet of your seeds of Japan Pinks planted in the spring of '99, I saved several good plants, which bloomed in the fall. They began blooming early in the spring, and continued all summer, and oh, such blossoms—large, from three to four inches across, delicate cream, pink, rose and mottled. They were indeed a joy and a beauty until cold weather came. I gathered hundreds of blossoms from the bed. Mrs. B. S.

Black Hawk Co., Iowa.

Mr. Park:—All lovers of flowers should try your Japanese Dianthus. They are very fine, and if they had the fragrance they would be equal to the finest Carnations. Such constant bloomers, with all shades of color, they afford great returns in the way of pleasure to the grower, and I advise all to try them.—R. E. Bryant, Montgomery Co., Ind.

Mr. Park:—Everyone I think likes Pinks, but not everyone knows how superior your choicest varieties of *Dianthus* are to the old fashioned sorts. Some of them are so large and double as to rival Carnations in beauty. All they lack is the perfume.—Mrs. Cora Hewitt, Clinton Co., Mich.

Mr. Park:—I guess every seed of your *Dianthus* came up, for I had more plants than I wanted, and gave to my neighbors. And such flowers, both double and single, the most beautiful I ever saw. They were the admiration of all passers-by.—Maggie Sheeley, Franklin Co., Kas.

Mr. Park:—Among the flower seeds I received from you last spring was a packet of Double Japan Pinks. They were simply grand when in bloom, so beautiful in variety of colors.—Miss W. H. W., Ham Co., Ind.

STRIPED PINKS.

Japanese Dianthus. They are very fine, and if they had the fragrance they would be equal to the finest Carnations. Such constant bloomers, with all shades of color, they afford great returns in the way of pleasure to the grower, and I advise all to try them.—R. E. Bryant, Montgomery Co., Ind.

Double and Single Eschscholtzias.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

ESCHSCHOLTZIA, MALTA CROSS.

Mandarin, deep orange.....	5	Malta Cross, see engraving.....	5
Golden West, large, yellow, new.....	5	All sorts, double and single, mixed, 4 packets, 10	3
Rose Queen, fine rose.....	5	cents, 1 packet.....	3

Mr. Park:—I sow your Eschscholtzias in the fall. In the spring the plants appear, and the bed is a great sheet of yellow, ranging from cream to deep orange, which, with the silvery, fine-cut foliage makes a grand display.—E. B. Shuner, St. Joe Co., Ind.

These are very brilliant, showy annuals. The plants grow a foot high, bearing dense, silver-green, fine-cut foliage, and large, Poppy-like shining flowers, mostly of a golden yellow color. The seeds should be sown where the plants are to bloom, early in spring, or in the south in autumn. Make a fine low border or hedge. The State flower of California, where fields of it grow naturally.

Single, white, rosy white, orange, carmine, deep orange, striped, separate, each color, per packet.....	5
Single mixed, 4 pkts. 10cts., 1 pkt. 3	3
Double, yellow, white, rose, and deep orange, each.....	5
Double mixed, 4 pkts. 10 cts., 1 pkt 3	3
Douglasii, new yellow, pretty	5

Annual Euphorbias.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

The Euphorbias I offer are very handsome foliage plants. They grow two feet high, and the flowers are small, but are surrounded by bracts or leaves that are richly colored and very showy. They are of easy culture, and very attractive in autumn.

Variegata, beautiful green and white variegation; makes a fine bed or group..	5
Heterophylla, rich scarlet bracts or leaves in the autumn; very fine.....	5
Aureo-variegatis, a variety of Heterophylla with elegant golden foliage; not always true.....	5
The above sorts in special mixture, 4 packets 10 cents, 1 packet.....	3

Mr. Park:—Euphorbia marginata (or variegata) is an annual that comes from seeds. It is lovely in growth, and the leaves are distinctly bordered with pure white. Each branch terminates in a cluster of white flowers, but these are insignificant, and it is the white-margined foliage which makes the plant attractive. It sometimes attains a height of five feet, but further north rarely grows over three feet high. It is of a succulent nature, and endures heat admirably.—Mrs. G. T. Drennan, Orleans Co., La.

Mr. Park:—Euphorbia heterophylla, though plain in early summer, becomes one of the gayest and showiest of our autumn plants. When the little flowers appear the whorls of floral leaves which surround them become rich in the most vivid colors, reminding one of a spray of autumn leaves. They like a warm, sunny place, and will bear any amount of drought.—Lora S. La Mance, McDonald Co., Mo.

EUPHORBIA HETEROPHYLLA.

Erodium Gruinum , a plant of the Geranium family, with hygrometrical seeds.....	5	Feverfew , grows 1½ feet high, with double white flowers in profusion.....	5
Erysimum , New Compact, a fine dwarf plant bearing yellow, Wallflower-like blooms.....	5	Gamolepis Tagetes , a yellow-flowered annual	5
Perofskianum , orange-flowered clusters.....	5	Grammanthes gentianoides , a very dwarf annual; flowers yellow, marked red.....	5
Fedia cornucopie , a little Valerian-like annual rarely seen; flowers dark rose, in clusters..	5	Guara Lindheimeri , a tall annual, with long spikes of pretty white bloom.....	5
Eupatorium , clusters of Ageratum-like flowers, white, fine for cutting.....	5	Glaucium corniculatum , a graceful, silver-foliaged annual, with red bloom.....	5
Eutoca viscida , blue and white flowers, showy, and in great profusion; annuals, a foot high.....	5	Gerardia hybrida , a Pentstemon-like perennial, blooming the first year.....	5
Eucharidum , pretty annuals, deserving more attention; pink, dark rose, white, new rose, m'd	5	Godetia , very pretty, showy annuals of easy culture; flowers cup-shaped, of all shades from white to crimson, many spotted; a favorite in England. Fine mixed, 4 pkts 10 cts., 1 pkt	3
Fenzlia dianthiflora , a profuse-blooming annual with rose, white and pink flowers; m'x'd	5		

You Never Err in Buying Park's Seeds.

They always grow, always bloom, always please.

None higher in quality, none lower in price.

They are put up by steam-power packing machines, marvels of ingenuity. The seeds are put in a hopper, and the empty envelopes in a long trough, then the power is applied, and the machine does the rest. The hopper can be refilled and the trough replenished while the machine is in motion, so that no time is lost, and the amount of work done is wonderful. Park's machines, operated by a skilful boy, turn out 60,000 packets a day during the busy season, measuring, filling, sealing and counting, and doing the work perfectly. Such labor-saving devices enable Park to sell the best seeds at the lowest prices, and Park runs all risks and guarantees satisfaction. Reader, you never err in buying Park's seeds. Better send your orders where the prices are right, and where you have assurance of first-class seeds and satisfactory treatment.

GEO. W. PARK, Seedsman & Florist, Libonia, Franklin Co., Pa.

Everblooming Gaillardias.

Complete Mixture, Single and Double, 4 pkts. 10 cents, 1 pkt. 3 cts.

Gaillardias are splendid everblooming plants growing two feet or more in height. The flowers are mostly red or yellow, or a combination of those colors. Started early the plants begin blooming in summer, and continue to bloom freely until frost. The perennial sorts are the most free-blooming and desirable for bedding, and are generally preferred to the annual varieties. They are hardy, and among the most desirable of our showy garden flowers.

NEW COMPACT GAILLARDIA.

| The Double sorts mixed, 4 packets 10 cents, 1 packet..... | 3 |
| Gaillardias in complete special mixture, 4 packets 10 cents, 1 packet..... | 3 |
| Mr. Park:—I began to cut my perennial Gaillardias on Memorial day, and they bloomed right along all summer and fall till the middle of November.—Julia H. Howe, Plymouth Co., Mass. | |
| Mr. Park:—Your Perennial Gaillardias are the flowers for our northern gardens. When once growing you have a continual bed of gold year after year. Calliopsis will also do the same.—Laura A. Randall, Ing. Co., Mich. | |
| Mr. Park:—I raised some Gaillardias from seeds last summer. They were beauties, and admired by all who saw them, as they were something new in this part of the country.—Augusta Oldfield, McPherson Co., Kas. | |

GILIA DICHOTOMA.

Beautiful Gilias.

Complete mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

The Gilias are hardy annuals of great beauty, and so easily grown that they should be in every garden. The plants grow a foot high, bearing graceful foliage and charming little flowers in profusion, in colors white, rose, lavender, yellow, dark blue, etc. There are some dwarf varieties that grow only six inches high, and are fine for edgings. Sow the seeds either in fall or spring, where the plants are to bloom.

- | | |
|--|---|
| Dichotoma, new; a very free-blooming sort, with lovely white flowers; see engraving; 4 packets 10 cents, 1 packet..... | 3 |
| Achilleaefolia, blue, white and rose, mixed..... | 5 |
| Capitata, blue and white, mixed..... | 5 |
| Lacinata, Liniflora, Minima and Nivalis, separate or mixed..... | 5 |

| H. globosus in a group, bordered with dwarf Nanus, appears well. H. Bismarckianus, 10 feet high, surrounded by H. primrose-colored, and the group bordered with H. Nanus fol. variegatis is very attractive. Try a bed. | | | |

HELIANTHUS GLOBOSUS, DOUBLE.

Hunnemannia fumarifolia, two feet high, with bright yellow, Poppy-like flowers, 4 pkts 10 cts., 1 pkt 3c.

New Giant Primrose Hibiscus.

4 packets 10 cents, 1 packet 3 cents.

NEW GIANT PRIMROSE HIBISCUS.

most peculiar I ever saw, and were very pretty.—Mrs. Opha Baxter, Kalamazoo Co., Mich.

Mr. Park:—Your Primrose Hibiscus are fine. The blossoms are as large as saucers. The plants grow 4 or 5 feet high, and bloom a long time.—Mrs. Ed. Fought, Neosho Co. Kan.

The New Giant Primrose Hibiscus is one of the most beautiful and attractive seedling flowers. The plants grow four feet high, are bushy, and appear as a dense pyramid of elegant lobed leaves, not unlike a Ricinus. Above the foliage are the great Primrose-yellow flowers, four inches across, each flower showing a distinct crimson-maroon eye, as shown in the engraving. Started early the plants bloom throughout the summer and autumn, and are wonderfully attractive, eliciting the admiration and praise of all who see it. Easily grown from seeds. Likes a rich, moist, sunny place. Desirable for pots as well as for the garden. May be kept over winter in the cellar, and will bloom well the second season. A hardy plant in the south. 4 packets 10 cents, 1 packet 3 cents.

Mr. Park:—My Hibiscus from your seeds grew $4\frac{1}{2}$ feet tall, with leaves from 12 to 14 inches across, of skeleton-like shape, and produced blossoms six inches and some seven inches across, of a light yellow with dark brown center. They were the admiration of all who saw them. The flowers opened daily at 3 o'clock, and the plants bloomed till frost. They were the

Heterospermum Xanthii.

4 pkts. 10 cents, 1 pkt. 3 cents.

This is a new annual suitable for a border or edging; grows eight inches high, spreading, and producing an abundance of chrome-yellow flowers, shading to canary at tip of petals. The plants begin blooming four weeks after they appear, and are in flower continuously until after the frosts of autumn. The plants are desirable for a bed, and appear well grown in masses, as also in rows or borders. It was introduced by an Italian florist in 1898, and is yet quite rare. It is highly recommended by its introducer, and should be given a trial.

HETEROSPERMUM XANTHII.

Impatiens glanduligera, annual, growing six feet high, crowned with clusters of showy red and white flowers; mixed, 4 pkts 10 cts., 1 pkt 3
Jonopsidium acule, charming miniature for a carpet about pot-plants, or for edging; known as Diamond Flower; 4 pkts. 10 cts., 1 pkt..... 5
Kaufussia amelloides, a pretty annual 6 inches high; Daisy-like; many sorts mixed... 5
Leptosyne Stillmanii, new compact; pretty yellow bloom; very early flowering..... 3

Leptosiphon, very free-flowering, beautiful dwarf annuals; many varieties, mixed..... 3
Linaria, fine plants for beds and pots; many sorts mixed..... 3
Lupinus, showy plants of easy culture; often 3 feet high; many sorts mixed..... 3
Lychnis, scarlet, white and rose flowers in profusion; fine mixed, all sorts; 4 pkts 10 cts., 1 pkt 3
Linum grandiflorum, scarlet flowers, a fine annual, a foot high..... 3

Beautiful Annual Lobelias.

Complete mixture of all varieties and colors, 4 pkts 10 cts., 1 pkt 3 cts.

The annual Lobelias are very graceful and beautiful flowering plants for outdoor edgings and for indoor pots and baskets. Seedling plants begin to bloom in a few weeks after they are started, and bloom freely and continuously for several months, until exhausted. The flowers are of various shades of white, red and blue, often with a conspicuous eye, as shown in the engraving, and always bright, delicate and attractive. Started in mid-summer the plants are handsome for pots or baskets in winter, and in the sunny window of a cool room will bloom until spring.

Barnard's Perpetual, a very fine variety, compact in habit, and blooms throughout the season; flowers dark blue with a distinct white edge. Fine for baskets, pots or borders. See engraving. 4 packets 10 cents, 1 packet..... 3

White Lady, new, large flowered white; very fine..... 5

Pumila alba, dwarf, compact, white..... 6

Pumila splendens, dark blue, with white eye, compact..... 5

Emperor William, light blue, compact..... 5

Royal purple, very fine, blue, white eye..... 3

Crystal Palace, blue, for edgings..... 5

Kermesina, crimson-flowered..... 5

Prima Donna, velvet maroon..... 5

Mr. Park:—I had good success with your Lobelia seeds. I think every one of the little seeds came up. I gave half away, and had a lovely mass of flowers in my garden.—C. M. Joslin, Montcalm Co., Mich.

Mr. Park:—I edged one of my flower beds with Lobelia. The flowers are blue and the foliage is so fine and pretty. It was in bloom all summer until late in the fall.—Mrs. Ellen L. Potter, Pulaski Co., Ind.

Mr. Park:—Started in July Lobelias bloom in autumn, and in pots, vases or baskets make a fine display the whole winter. I pulverize the soil, sift it, then sow. In a few days the pot is covered with tiny plants. I always get my seeds from Mr. Park, and they are of the growing kind.—Mrs. E. E. Fressler, Effingham Co., Ind.

BARNARD'S PERPETUAL LOBELIA.

Pearl, white, with blue margin. 5 Golden Queen, yellow band..... 5
 Duplex, double, mostly true.... 5 Ramosa, red, white and blue, mixed 3
 All varieties in splendid mixture, 4 packets 10 cen's, 1 packet 3 cents.

Lavatera.

Special Mixture, 4 packets 10 cents, 1 packet 3 cents.

Lavatera trimestris is a splendid malvaceous annual, two feet high, bearing showy flowers not unlike a Single Hollyhock. Easily raised from seeds, and blooms all season. Makes a fine hedge or low screen. Although of the simplest culture, this splendid annual is rarely met with. It deserves a place in every garden of flowers.

Colors red and white, separate, each..... 5
 Both colors in special mixture, 4 pkts. 10 cts., 1 pkt. 3

Mr. Park:—For two years I have tried to get Lavatera trimestris to grow, but failed. Last spring, however, I bought a package of seeds from you, and succeeded in raising some fine flowers.—J. G. Noyes, Suffolk Co., Ill.

Lavatera Trimestris.—The most useful of Lavateras is L. trimestris, a beautiful South European Annual, 2 to 3 feet high, and bearing in summer a profusion of large, pale rose or white blossoms. It thrives in ordinary soil, preferring one that is rich and light. It may be sown in autumn or early spring in the open border.—English Flower Garden.

Lavatera trimestris.—Few annuals are gayer than this. The type is rose, and the variety, alba, is white. A group of this in some rough spot in the garden, or in the border, is delightful. The plant is free in growth and bloom. Both grow to a height of three feet. The flowers are precious for cutting, and those of this mallow remain in beauty from July to September.—Century Book of Gardening.

LAVATERA TRIMESTRIS.

Marigolds in Grand Variety.

Complete mixture, all sorts, 4 packets 10 cents, 1 packet 3 cents.

SINGLE DWARF FRENCH MARIGOLD.

African kinds in the center, the tall French kinds next, and bordering with the French dwarf kinds, or with *Tagetes signata pumila*, the dwarf American Marigold.

- African Marigold**, Double, (see engraving), orange, sulphur, quilled yellow (Eldorado), and quilled sulphur; each..... 5
 Tall African mixed, 4 packets 10 cents, 1 packet..... 3
 Dwarf African mixed, 4 packets 10 cents, 1 packet..... 3
French Marigold, orange, gold-margined, dark brown, striped, sulphur, grandiflora tall or dwarf
 Tall French mixed, 4 packets 10 cents, 1 packet..... 5
 Dwarf French mixed, 4 packets 10 cents, 1 packet..... 3
French Lilliput Marigold, small flowered, brown, gold and sulphur, separate or mixed..... 5
French Dwarf Single, (see engraving), Legion of Honor, gold-margined, yellow, sulphur and striped, each per packet..... 5
 French Dwarf Single mixed, 4 pkts. 10 cents, 1 pkt..... 3

Tagetes signata pumila, beautiful edging, 9 inches high; dense, fern-leaved, and smothered with golden flowers, 4 pkts. 10 cts., 1 pkt. 3

Mr. Park:—Marigold, Legion of Honour, is a flower of great beauty. Your friends should know how handsome it is.—R. S. Bryant, Montgomery Co., Ind.

The Marigolds (*Tagetes*) are old-fashioned flowers, but are not to be despised. There are few flowers brighter or more attractive. Even a child can start the plants, and they quickly come into bloom, and are a show of brown or golden flowers throughout the entire season, until after severe frosts. Every garden should contain a bed of these flowers. The Double African kinds are as showy as Dahlias, and more free-blooming. The French Marigolds are not so large, but are more delicate, and quite as attractive. The single bicolored dwarf varieties are now fashionable, and are fine for edging and borders. A very showy and satisfactory bed can be made of Marigolds alone, planting the tall

DOUBLE AFRICAN MARIGOLD.

Complete mixture, French, African, Single and Signata, carefully proportioned, containing seeds of all the sorts, 4 packets 10 cents, 1 pkt. 3

SWEET MIGNONETTE.

- Ruby machet, coppery-scarlet..... 5
 Pumila erecta, best for pots..... 3
 Miles Spiral, excellent..... 3

Mr. Park:—One whole bed was devoted to your mixture of Mignonette last summer and its fragrance filled the air for quite a distance around. It well paid one for rising early. Although its odor was wafted about by the winds in daytime, yet its sweetness was most delightful in the early morning.—Mrs. L., Macomb Co., Mich.

Sweet Mignonette.

Complete mixture, all kinds, 4 pkts. 10 cts., 1 pkt. 3 cts.

The Sweet Mignonette is not a gaudy plant, but its flowers are produced freely in fine spikes, and are deliciously fragrant, so that it is a favorite annual. The plants start readily, and will grow anywhere. Excellent bee-plant. Fine for cutting.

Complete mixture, containing sorts of all the above varieties, 4 pkts. 10 cents, 1 pkt.	3

Mr. Park:—A friend of mine had a bed of your Mimulus flowers last summer, and if anything could be prettier I don't know what it could be. They were purple and white mixed, and yellow and red mixed and spotted, and different shades of all colors, spotted and striped. Some of the flowers were as large as a silver dollar, with throats like a Snapdragon.—Mrs. Willis Morrison, Los Angeles Co., Cal.

GLOXINIA-LIKE MIMULUS.

Some of the flowers were as large as a silver dollar, with throats like a Snapdragon.—Mrs. Willis Morrison, Los Angeles Co., Cal.

Mirabilis---Four-O-Clock.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

Old-fashioned herbaceous perennials, blooming the first season from seeds. Each plant becomes a bush three feet high and three feet across, covered during every evening in summer with the large, bright, showy flowers of many colors. Grouped together the plants make a fine bed. The dwarf sorts are fine for the border. They grow less than a foot high, have striped foliage, and as fine flowers as the tall varieties. See engraving.

Tall white, white and yellow, white and red, yellow, rose, red and yellow, crimson, violet, lilac, lilac and white, and tricolor, each.....	5
Tall varieties mixed, 4 packets 10 cents, 1 packet.....	3
Complete mixture, tall and dwarf, in all colors, 4 packets 10 cents, 1 packet.....	3

Dwarf white, yellow and red, white and red, yellow	5
Dwarf varieties mixed, 4 packets 10 cents, 1 packet	3

Mr. Park:—Last year I grew a plant of your Mirabilis in the house, because I love the delicious scent of the flowers. When it died down in the fall I set the pot away, and the next spring it came up and grew, to my astonishment. This summer I had a large lot of the plants, and they were lovely. The roots are like Dahlia roots, and I shall keep them in the cellar, and set them out next spring.—Mrs. M. M. Burnham, Charlevoix Co., Mich., Nov. 7, 1901.

Myosotis---Forget-me-nots.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Everybody loves the delicate little clusters of Forget-me-not, and when the plants are so easily grown they should be in every garden. Started early the plants will bloom in autumn; started in August they will bloom in the spring. They like shade.

MYOSOTIS.

Nemesias==New and Old.

Complete Mixture, 4 packets 10 cents, 1 packet 3 cents.

NEMESIA FLORIBUNDA COMPACTA.

Messrs. Sutton and Sons, who originated the New Hybrid varieties, received the following letter from one of their patrons, who grew a bed of the New Nemesias: "I planted a round bed 14 feet in diameter, with the four colors of Nemesis, and it has been splendid. Everyone who saw it asked what it was. Of all the annuals I have grown, this tops the lot.—F. Tunbridge."

The Nemesias are very pretty, free-blooming annuals, and are of easy culture. The plants grow a foot high, are compact, and keep in bloom for several weeks. The older Nemesias are varieties of *N. floribunda*, found on the Cape of Good Hope. *N. strumosa* is from South Africa, and *N. strumosa compacta* is a hybrid, and has the hardy character of *N. floribunda*, with the large, showy flowers of *N. strumosa*. I offer a fine mixture of all these fine Nemesias, 4 packets 10 cents, 1 packet 3 cents.

<i>Floribunda compacta alba</i>	5
<i>Compacta bicolor</i> , blue and white.....	5
<i>Compacta cœrulea</i> , blue.....	5
<i>Strumosa Suttoni</i> , new, large-flowered, mixed.....	5
<i>Strumosa nana compacta</i> , new hybrids, varieties mixed; 4 packets 10 cents, 1 packet.....	3
All varieties mixed, 4 packets 10 cents, 1 packet.....	3

NEMESIA STRUMOSA COMPACTA.

Nicotiana.

Complete mixture, 4 packets 10 cents, 1 packet 3 cts.

The Nicotianas are valuable for both foliage and bloom, and are of the easiest culture. *N. affinis* grows three feet high, and has deliciously scented flowers which open in the evening. It should be in every garden. *N. colossea* has immense leaves, and appears well as an isolated specimen. All are readily started from seeds.

<i>Acuminata</i> , white, fragrant, pretty.....	3
<i>Atropurpurea grandiflora</i>	3
<i>Colossea</i> , large-leaved.....	5
<i>Affinis</i> , white, fragrant, very free-blooming, see engraving.....	3
<i>Macrophylla gigantea</i> , giant-leaved.....	5
<i>Suaveoleus</i> , white, fragrant.....	5
<i>Sylvestris</i> , drooping white flowers, tall, makes a fine bed.....	5
<i>Tobaccum</i> , fol. var., the variegated-leaved Tobacco.....	5

Mr. Park:—*Nicotiana affinis* is a favorite of mine. I had about a dozen large plants last summer. The flowers are large, star-shaped, open about four o'clock in the afternoon, and remain open till nine o'clock the next day. They are very fragrant, and make a beautiful appearance at night. I have had a great many people visit my gardens in the evening to see the flowers, and everybody was more than pleased with them.—Mrs. F. C. Farrington, Essex Co., Mass.

<i>Nemophila</i> , hardy annuals a foot high; flowers white, red and blue, often spotted; sow in spring or fall; mixed, 4 packets 10 cents, 1 packet.....	3
<i>Nigella damascena</i> , growing a foot high, bearing double white and blue flowers; known as Love in a Mist; mixed, 4 pkts. 10 cts., 1 pkt.....	3
<i>Nierembergia gracilis</i> , a profuse-blooming plant, blooming in winter in pots when sown early in spring; lilac.....	3

NICOTIANA AFFINIS.

<i>Notana</i> , a little trailing plant with blue and white flowers; fine for pots or baskets; mixed colors...	3
<i>Nycteria capensis</i> , white, very fragrant	5
<i>Selaginoides</i> , lilac, graceful.....	3
<i>Oxalis</i> , valuable plants for pots and baskets, and useful in bedding. <i>Floribunda</i> , mixed; <i>Rosea</i> , mixed; <i>Sensitiva</i> , white-leaved; <i>Tropaeoloides</i> , brown foliage, yellow bloom, for beds; each.....	5
All kinds mixed, 4 packets 10 cents, 1 packet....	3

You Never Regret Buying Park's Seeds.

Price and Quality are always right.

Mr. Park:—I regret I did not have your Catalogue earlier, for I sent off a large order before, paying from ten to twenty cents per packet for seeds that you offer for three cents. However, I find in your list some I want, and enclose my order for them.—Mrs. Lillie Pleas, Wash. Co., Fla., Mar. 5, 1901.

Oenothera---Evening Primrose.

Complete Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Primrose Yellow is a lovely color, and in the flowers of this genus we can observe the color in its purity. The flowers are cup-shaped, freely produced, fragrant, and always admired. The plants come readily from seeds, and grow well in any sunny place.

Johnsonii, an annual of vigorous growth, four feet high, blooming freely within a few weeks after sowing; flowers half an inch in diameter, and clear yellow. (See engraving) 4 pkts 10c, 1 pkt 3c
 Macrantha, large, golden yellow flowers..... 3
 Lamarkiana, tall, fine..... 3
 Fraseri, large yellow flowers..... 3
 Missouriensis, dwf, 4 pkts 10c, 1 pkt 3c
 Taraxacifolia, yellow and white mixed..... 3
 Complete mixture, all sorts, 4 packets 10 cents, 1 packet..... 3

OENOTHERA—EVENING PRIMROSE—JOHNSONII.

Oenothera Missouriensis.
 —This has rich golden yellow flowers from four to five inches in diameter, and so freely produced that the plant may be said to cover the ground with tufts of gold. There is no more valuable border flower, and well-placed on rock-work it is a handsome plant, especially when the luxuriant shoots are allowed to hang down.—English Flower Garden.

PAPAVER GLAUCUM.

Mr. Park:—The past summer my neighbor, Mrs. C. E. Cook, raised from your seeds the largest and brightest bed of Shirley Poppies ever seen in this section. The dainty single blooms of satiny sheen were quilled and fluted, with edges of contrasting color, often mottled and penciled petals in all the colors of the rainbow, and the most exquisite shades and wonderful deversified markings. Two long beds a foot broad were the wonder and admiration of every passer-by.—Jennie M. Mason, Hancock Co., Me., Nov., 24, 1901.

Papaver---Annual Poppies.

Complete mixture, 4 pkts. 10c., 1 pkt. 3c.

Nothing is more showy than a mass of the big, silky flowers of the Poppy, and no annual is more easy of culture. Sown in the bed either in fall or spring the plants will soon reveal themselves in colors, and elicit the admiration of all who see them. If cut freely the bloom will be continuous for weeks. The newer varieties are among the most satisfactory of our garden flowers. Don't fail to have a big bed of Poppies the coming season.

Arenarium, large scarlet flowers; fine cut foliage..... 3
 Lævigatum, scarlet with black spots..... 3
 Glaucum, the Tulip Poppy; dazzling scarlet flowers, not unlike a Tulip in form. (See eng.) 4 pkts 10c, 1 p 3c
 Shirley Poppy, single flowers of various colors and variegations; light-colored stamens; one of the finest; 4 packets 10 cents, 1 packet..... 3
 Umbrosum, glowing vermillion, very showy..... 3
 Murselli fl. pl., various colors in splendid mixture, 4 packets 10 cents, 1 packet..... 3
 Carnation-flowered, double, 16 varieties, separate or mixed, 4 packets 10 cents, 1 packet..... 3
 Pæony-flowered, double, 18 varieties, separate or mixed, 4 packets 10 cents, 1 packet..... 3
 Dwarf Carnation-flowered, mixed..... 3
 Dwarf Pæony-flowered, mixed..... 3
 Dwarf Ranunculus-flowered, mixed..... 3
 Complete special mixture of all sorts and colors, 4 packets 10 cents, 1 packet..... 3

Mr. Park:—Your Shirley Poppies sown either in late fall or as early as April, in this State, in a rich, moist clay soil, in open sun, gives us flowers wondrous in size and superb in coloring. Nothing beneath the sun returns so much beauty for the care given them.—Pauline D. Cook, Worcester Co., Mass., Nov. 7, 1901.

Perilla, annual foliage plants, a foot high, red, fluted and fringed foliage; mixed..... 3

Phacelia, handsome blue-flowered annuals; 1 ft.; showy, of easy culture; good for beds; oz. 10 cts. 3

Roemer's Giant Prize Pansies.

Complete mixture, 4 packets 10 cents, 1 packet 3 cents.

ROEMER'S GIANT PRIZE PANSIES.

The Pansy is probably the most popular flower in cultivation. Everybody admires the flowers, and everybody who has a little space for flowers wants some plants. They grow in any moist, shady soil, and the bright-colored, delicate-textured flowers are borne from early in spring till the snows of winter come, and they may often be dug out fresh and beautiful from beneath their covering of snow in February. I have tried the seeds of many Pansy specialists, as I wish to serve my patrons with the best to be obtained, and I find there are none better than Roemer's Giant Prize Pansies. The plants of this strain are strong and sturdy, have robust foliage, are very free-blooming, and if not allowed to form seeds will bloom continuously. The flowers are of enormous size, plain or ruffled, graceful in form, rich in colors and variegations, mostly fragrant, and exceedingly attractive in every way. They are truly perfection. If you want prize-winning Pansies, get Roemer's Giant Prize. They will not disappoint you.

Only 25 cents for 10 packets of Roemer's Giant Prize Pansies—one packet of each of the following:

- White in variety**, embracing pure white, white with eye, white slightly shaded and tinted, white with spots, etc., 4 pkts. 10 cents, 1 pkt. 3
- Red in variety**, embracing bright red, rosy red, rich scarlet, and red with tints and shadings, etc., 4 packets 10 cents, 1 packet..... 3
- Blue in variety**, embracing dark blue, dark violet, rich purple, and blue margined and shaded and blotched, 4 packets 10 cents, 1 packet..... 3
- Black in variety**, embracing coal black, black blue, dark violet blue, jet black, purplish black, 4 packets 10 cents, 1 packet..... 3
- Yellow in variety**, embracing rich pure yellow, golden yellow, yellow with eye, yellow with spots, yellow shaded, 4 pkts. 10 cts., 1 pkt. 3
- Striped and Flaked**, embracing a great variety of colors, all distinctly striped, flaked and splashed, 4 packets 10 cents, 1 packet..... 3

- Blotched and Spotted**, embracing pure ground colors, with blotches and spots showing in peculiar and striking contrast; marvelous in size, form and odd markings; 4 pkts. 10 cts., 1 pkt. 3
- Shaded and Margined**, embracing all of the leading colors margined and shaded and rayed in superb and charming contrast; many light and beautiful tints as well as deeper and richer shades; 4 packets 10 cents, 1 packet..... 3
- Azure in variety**, embracing lovely new shades of light blue, azure, ultramarine, and lavender blue, some strikingly marked and tinted; 4 packets 10 cents, 1 packet..... 3
- Mixed Colors**, embracing a variety of superb shades and markings not included in above offerings, as plain and fancy faces of orange, bronze, peacock, lilac, violet, etc., many rare varieties mixed; 4 packets 10 cents, 1 packet..... 3

Complete mixture of all shades, colors and markings, carefully prepared, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park:—From one package of Roemer's Giant Pansy seed, I had the largest and showiest bed of Pansies in our neighborhood. I planted in boxes in the house, early in April and transplanted to the garden later. The blossoms were very large and showy, embracing so many different shades and colors. We picked quantities every morning, sharing with our less fortunate neighbors.—Mrs. J. F. Brooks, Kent Co., Mich., Dec. 11.

Mr. Park:—It is said Pansies do not thrive in the South, but my plants from your seeds sown in the spring, did well, planted on the east side of the house. They were beautiful, a joy all summer, and still in bloom. I advise my Southern sisters to grow your Pansies.—Mrs. J. S. Conrad, Marshall Co., Tenn.

Dear Mr. Park:—In August, 1899, I bought of you ten packets of Roemer's Giant Prize Pansy seeds, and in November, the same year, had Pansies in bloom. Later I covered the plants with evergreen boughs, and at Christmas picked a dozen fine blooms. In March I removed the covering, and found lots of buds and blooms, and by April 1st the bed was a mass of flowers. Everybody who saw them wanted to buy some plants, and I sold about \$5.00 worth at 25 cents per dozen, and had three dozens left for myself. Everybody admired and praised my bed of Pansies. Now, Mr. Park, I enclose 25 cents for 10 packets more of Roemer's Pansies.—W. D. Smith, Union Co., Ind., Nov. 10, 1901.

Dear Mr. Park:—I have tried a good many different kinds of Pansies, but for sturdy growth, continuous bloom, lovely flowers and fine markings, Roemer's surpass any other in our locality.—Mrs. Hetrick, Bed. Co., Pa.

PANSY PLANT.

26 BEST VEGETABLES 25 CENTS

A Big Seed Bargain.

 I offer seeds of 26 of our best Vegetables, embracing all those described in this booklet, for 25 cents. The packets are well filled, and the seeds are fresh, and of the finest quality. There are none better to be had anywhere at any price.

A Grand Special Offer.

A year's subscription to PARK'S FLORAL MAGAZINE (25c.), a beautiful floral monthly, included with the offer if desired. If you want it be sure to ask for it when you send your order.

Will You Get up a Club?

You can get your own seeds—25 packets—free, by sending a club of 10 subscribers (\$2.50). Almost everybody who has a garden will want these seeds, and thank you for calling attention to them. Blank lists, Booklets, etc., sent free.

Please Note This.

You make no mistake in buying this great bargain seed collection. It will plant your entire garden, and supply your table with all the best vegetables throughout the year. Kindly let me have your order and the orders of your friends. Address

GEORGE W. PARK,
Libonia, Franklin Co., Pa.

The Best Vegetables.

Asparagus, New Palmetto.

Per packet 3 cents, 4 packets 10 cents.

Asparagus is a delicious vegetable, and can be grown satisfactorily in the North as well as South. The young, vigorous shoots are used. They are usually boiled, seasoned, and then dressed with cream or butter. Seeds germinate readily, and the plants require a year or two to get established. Once started, however, the bed will yield an abundance of shoots every season. Mulch heavily with chip dirt. The New Palmetto surpasses the Colossal in earliness, vigor, regularity and quality. 1 oz. drills 50 feet. Per oz. 5 cents, $\frac{1}{4}$ lb. 15 cents, lb. 50 cents.

Bean, Bush, Improved Golden.

The Best Rust-proof Wax Bean.

Per packet 3 cents, 4 packets 10 cents.

This is a very superior Bush or Dwarf Bean, maturing for the table in five weeks from the time of germination. The seeds are large, of kidney shape, and are borne in long, broad, meaty, rich golden yellow pods, brittle, stringless, and without a tough lining, and of delicious flavor. A very productive sort, erect in habit, holding the pods well above the soil. Certainly one of our best snap beans. A pint of seeds drills 50 feet. $\frac{1}{2}$ pint 12 cts., pint 20 cts., quart 38 cts.

Beet, Improved Edmand Early.

Per packet 3 cents, 4 packets 10 cents.

This is the perfection of Beets, comes very early, may be used throughout the season, and keeps well for use during winter and spring. Large, round, blood red, very tender, without woodiness, delicious in flavor, and grows well, even under unfavorable conditions. It is really a "seek-no-further" Beet. Sow in rows a foot apart, 1 oz. to 40 feet, and thin till six inches apart in the rows. For early use sow very early; for main crop sow when the apple is in bloom; for winter use sow a month later. Per ounce 5 cts., $\frac{1}{4}$ lb. 12 cents, lb. 35 cents.

Carrot, Early Scarlet Horn.

Pl. 3 cts., 4 pkts. 10 cts.

This splendid Carrot, fairly represented in the engraving, is unquestionably the most desirable variety for the family garden. It thrives in almost any soil, matures quickly, is smooth and of fine shape, rich orange scarlet in color, fine in texture, of excellent flavor, and very productive. Properly cooked and served this Carrot is appreciated, and is a favorite dish after its flavor becomes familiar. Sow early in rows a foot apart, and thin till the plants are six inches apart in the rows. Keep the ground well cultivated, and mulch with good stable lit-

ter. One ounce drills 160 feet. Per oz. 5 cents, $\frac{1}{4}$ lb. 15 cents, per lb. 50 cents.

Cabbage, The Best Early.

Per packet 3 cents, 4 packets 10 cents.

SELECT EARLY JERSEY WAKEFIELD. This is the earliest Cabbage in cultivation, coming in from 10 to 12 weeks after sowing, and is the most desirable of early varieties for the family as well as the market garden. Every plant, under favorable conditions, will produce a fine head, egg-shaped, solid, very tender and sweet, and of excellent flavor, either raw or cooked. The loose leaves enclosing the head are few and small, allowing the plants to be grown close together, say 18 inches each way. For very early Cabbage sow the seeds in a box in the house, or in a hot-bed, early in spring, and transplant to shallow trays when large enough. This transplanting promotes the growth of a mass of rootlets, and insures a fine growth and early heading after the plants are removed to the bed in the garden a fortnight later. For mid-summer use sow outdoors early in spring, and transplant direct to the garden bed. One ounce will sow 300 feet of row. Per oz. 15 cents, $\frac{1}{4}$ lb. 40 cents, 1 lb. \$1.50.

Transplanting Cabbage.—You cannot set Cabbage plants too deep in the soil, provided the growing tip with a leaf or two are above the surface. Long-stemmed plants are preferable to short-stemmed ones, for they can be deeply set, and the deeper they are set the better they resist drought, the more roots are produced, and the more thrifty the growth.

Cabbage, The Best Late.

Per packet 3 cents, 4 packets 10 cents.

EXCELSIOR LATE FLAT DUTCH. For the main crop of Cabbage nothing excels the Excelsior Late Flat Dutch. The plants grow dwarf and stocky, and every one, ordinarily produces a compact, solid head of enormous size. More cabbage can be grown to the acre of this variety than of any other, while for sweetness, tenderness and delicious flavor in either a raw or cooked state it has no superior. The hardy character of the plants encourages growth until very late in the season—long after the first autumn frosts, and the thrifty heads gathered and properly housed will keep until late in the spring. We know of no Cabbage that surpasses it for sure-heading, vigor of growth, productiveness and long-keeping. These qualities have been fixed by long-continued careful selection, and intelligent culture, and in stating that this is the best late Cabbage we make no idle boast, but assert what we believe to be a fact. Set the plants in rows 3 feet apart, and two feet apart in the row. Market gardeners and those who grow Cabbage in large quantities can get no better Late variety than this. It is truly "Excelsior" in every respect. Per oz. 12 cents, $\frac{1}{4}$ lb. 40 cents, lb. \$1.50.

●**The Cabbage Worm.**—A simple and effectual remedy for the cabbage worm is road dust. Sprinkle this over the foliage thoroughly whenever the plants are affected, and the depredations will soon cease.

Celery, Giant Paschal.

Per packet 3 cents, 4 packets 10 cents.

The best variety of Celery for general culture yet introduced is the Giant Paschal, which originated from the Golden Self-Blanching Celery, and possesses all the merits of that superb variety with the addition of larger size and longer keeping. Its beautiful silvery stalks are solid, stringless, crisp and tender, and have a rich, nutty flavor. This is one of the most handsome varieties of Celery, and the most productive and profitable. 1 ounce drills 100 feet of row. Per ounce 10 cts., $\frac{1}{4}$ lb. 30 cts., 1 lb. \$1.00.

Culture.—Sow in shallow drills when the Cherry is in bloom, cut the tops back to promote stocky growth, and early in summer set the plants out six inches apart in shallow trenches, three feet apart. In autumn draw the earth in around the plants, and finally bank it in around them. Give rich soil, good culture, and plenty of water.

Corn, Country Gentleman.

The best Sweet Corn—most sugary and delicious-flavored, most appetizing in appearance, most productive, best for either early or late crop.

Per packet 3 cents, 4 packets 10 cents.

Surpassing all other varieties of Sweet Corn we have the Country Gentleman. It is tender, sweet and delicious, possessing a rich flavor that is not uniformly found in any other variety. The kernels are rounded, irregular, very long, always well-filled and retain their milky state in perfect condition for use longer than any other Sweet Corn. The stalks grow six feet high, and every stalk bears from two to three fine, well-developed ears, coming early into use, and desirable for canning or drying, as well as for immediate use. By several plantings you can have Sweet Corn of the finest quality throughout the season, and all you want for drying. It is a pleasure to recommend this superior Corn, as it is something that will afford unbounded satisfaction to everyone who grows it. Don't fail to give it a trial. When the luscious ears come upon your table you will thank us for calling your attention to something so delicious and valuable. Our seeds are pure and true. One pint plants 100 hills, 8 quarts an acre. Half pint 15 cents, pint 20 cents, quart 30 cents; bushel (by express, not prepaid) \$3.

Cucumber, Improved White Spine.

Per packet 3 cents, 4 packets 10 cents.

The fruit of this variety is of medium size, handsome in appearance, early, very prolific, and unequalled for either slicing or pickling. For small pickles this variety is of surpassing value; cut early, and often. Without a doubt the finest Cucumber in cultivation. 1 ounce plants 50 hills. Per ounce 5 cents, $\frac{1}{4}$ lb. 15 cents, lb. 60 cents.

Egg Plant, Improved Thornless.

Pk. 3c., 4 pks. 10c.

The large, handsome purple fruits of the Egg Plant are very palatable when sliced and fried. The new Improved Thornless is the best, the fruits being of large size and a beautiful purple. Don't buy inferior Egg Plant seeds. Those I offer are from selected fruits. Oz. 35c., $\frac{1}{4}$ lb. \$1.

Kohl Rabi.

Pkt. 3c., 4 pkts. 10c.

This is a delicious vegetable partaking of the qualities of the Cabbage and Turnip. The plant is of easy growth, very productive, and should be cultivated in the same way as the Rutabaga Turnip. 1 oz. drills 300 feet. Per ounce 10 cents, $\frac{1}{4}$ lb. 35 cents, pound \$1.25.

Lettuce, Improved Hanson.

Per packet 3 cents, 4 packets 10 cents.

This is a very superior Lettuce, coming early, and continuing tender and usable longer than any other sort. The leaves are beautifully curled and crimped, rich greenish golden yellow, densely arranged, and devoid of the unpleasant bitterness of most sorts. Per ounce 8 cents, $\frac{1}{4}$ lb. 25 cents, per pound 75 cents.

Melons, Best Varieties.

Per packet 3 cents, 4 packets 10 cents.

MUSKMELON, EMERALD GEM. This is the best Muskmelon for the family garden. The melons are not large, but the vines are hardy and prolific, as easily grown as a Cucumber, and every melon will ripen sweet and delicious. Per oz. 5 cents, $\frac{1}{4}$ lb. 15 cents, pound 50 cents.

WATERMELON, PHINNEY'S EARLY. An early-maturing sort, does well in any sunny garden, North or South. 1 oz. plants 100 hills. Per oz. 5 cents, $\frac{1}{4}$ lb. 18 cents, lb. 60 cents.

Onion, Wethersfield Early Red.

Per packet 3 cents, 4 packets 10 cents.

This is a superior Onion that matures early, yielding large, solid, mild-flavored bulbs that keep well till Onions come again. It produces large bulbs from seeds the first season when sown early, thinned and cultivated. For sets sow thickly. There are many strains of Wethersfield Onion, and the one I offer is the earliest and best. Avoid late, inferior strains. 1 oz. drills 150 feet. Per oz. 10 cents, $\frac{1}{4}$ lb. 35 cents, per lb. \$1.25.

Parsnip, Improved Sugar.

Pkt. 3c., 4 pkts. 10c.

This is not the old-fashioned, long, slim, late Parsnip, but a greatly improved variety, large, thick, short, early maturing, of fine texture and very sweet. It is unexcelled, and always satisfactory. The seeds offered are fresh, and can be depended upon for a fine crop. 1 oz. drills 200 feet. Per oz. 5 cts., $\frac{1}{4}$ lb. 10 cts., lb. 40 cts.

Parsley.

Pk. 3c., 4 pkts. 10c.

A beautiful edging plant, valuable for flavoring soups, and for garnishing. 1 oz. drills 150 feet. Per oz. 8 cents, $\frac{1}{4}$ lb. 25 cents, lb. 65 cents.

Pea, Extra Early Premium Gem.

Per packet 3 cents, 4 packets 10 cents.

This is a decidedly improved variety of McLean's Little Gem, earlier, more compact and productive, with larger pods. It grows 15 inches high and does not require bushing. The peas are green, wrinkled, very sweet, and deliciously flavored. For either the family or market garden there is nothing better, its easy culture, productiveness and high quality commending it to all. The favorite Pea; many persons will have no other. 1 pint drills 40 feet. $\frac{1}{2}$ pint 12 cents, pint 20 cents, quart 35 cents, peck \$1.00, bushel \$3.00. [NOTE.—Quantities of a peck or more are sent by express, not prepaid.]

Radish, Choice Mixture.

Pkt. 3c., 4 pkts. 10c.

For the family garden a mixture of early, medium and late sorts is most satisfactory, as the Radish bed will thus supply the table throughout the season. I offer a first-class mixture of the best sorts, that will be sure to please all who may purchase it. The mixture embraces a preponderance of choice early Radishes, with a

fair proportion of the summer, fall and winter sorts. One ounce will drill 18 feet. Per oz. 5 cts., $\frac{1}{4}$ lb. 15 cents, lb. 50 cents.

Salsify or Oyster Plant.

Per packet 3 cents, 4 packets 10 cents.

An easily-grown plant that deserves more attention. Treat as the Parsnip. Makes a delicious soup, or may be par-boiled and fried. Should be in every garden. Ours is an improved, large-rooted sort. 1 oz. drills 75 feet. Sow early, or in fall. Oz. 8 cts., $\frac{1}{4}$ lb. 30 cts, lb. \$1.00.

Spinach, Ever-ready.

Per packet 3 cents, 4 packets 10 cents.

The best all-round Spinach, as early as any, and keeps in cutting condition three weeks longer than the latest. Boiled and dressed with vinegar and sugar it is a delicious vegetable. 1 oz. for 18 feet. Per ounce 5 cents, per $\frac{1}{4}$ lb. 10 cents, per lb. 35 cents.

A SURE VINE-BUG REMEDY.

With every Vegetable-seed collection is included a simple, inexpensive and certain remedy for the "bugs" that destroy young plants of Cucumber, Squash and Melon. This remedy is worth more than ten times the collection price to any gardener. It is sent free.

Squash, Delicata.

Per packet 3 cents, 4 packets 10 cents.

This is a new sort, not of large size, but exceedingly productive and very early. The seed cavities are small, and the thick flesh cooks dry, and is rich, sweet and delicious. It is the best for either summer or winter, easily grown, and can be readily kept till squashes come again. 1 oz. plants 30 hills. Oz. 25 cts., $\frac{1}{4}$ lb. 75 cts., lb. \$2.25.

Tomato, Improved Beauty.

Per packet 3 cents, 4 packets 10 cents.

The Improved Beauty is doubtless the best early tomato. The purplish-scarlet fruit is large, smooth, of perfect shape, solid, has but few seeds, does not rot or crack, ripens early and evenly, and is without a green core. In quality it is unsurpassed. Very productive, bears throughout the season, and ships and keeps well. A Tomato that is almost perfect in every respect. 1 oz. for 1500 plants. $\frac{1}{4}$ lb. for an acre. Per oz. 15 cents, $\frac{1}{4}$ lb. 50 cents, 1 lb. \$1.75.

Tomato, Improved Stone.

Per packet 3 cents, 4 packets 10 cents.

This is, without doubt, the best and most desirable Tomato for a general crop. The fruit is large, deep red, solid, smooth as an apple, free from a green core, ripens evenly, and is produced in fine clusters. In quality it is rich and finely flavored. Will produce ten tons or more or 600 bushels to the acre in good soil. The best Tomato for the farmer, trucker or canner, and for private use. Oz. 15 cts., $\frac{1}{4}$ lb. 50 cts., lb. \$1.75.

Turnip, Purple-top Strap-leaf.

Per packet 3 cents, 4 packets 10 cents.

This is considered the best Turnip for general use. It is of fine form, very productive, matures quickly, is solid, sweet, and rarely bitter in taste, even when matured during the warm autumn weather. An ounce of seeds drills 100 feet. 4 lbs. will sow an acre. Sow in spring, summer or early autumn, according to the time you wish the Turnips for use. Valuable for feeding stock, as well as for table use. Keeps well till spring. Cut the crown out then to prevent growth, and the turnips will not become pithy. Per oz. 5 cents, $\frac{1}{4}$ lb. 50 cents, lb. 50 cents.

Turnip, Excelsior Swede.

Pkt. 3c., 4 pkts. 10c.

This is the perfection of Swede or Rutabaga Turnips. It grows readily to great size, keeps well in winter, and is valuable for table use as well as for stock, being of fine texture and fine flavor. This is so much superior to other varieties that it should be the variety of every garden. Sow in a bed in early spring and transplant the young plants just as you would Cabbage, setting a foot apart each way. Oz. 5 cts., $\frac{1}{4}$ lb. 15 cts, lb. 50 cts.

A Closing Word.

I offer seeds of all of the Choice Vegetables described in this Booklet—26 well-filled packets of seeds of the finest quality, all for 25 cents. In making up the collection I have aimed to embrace the very best and most useful varieties, such as will delight those who grow them, while the seeds are inferior to none and equalled by few. The packing is all done on my new patent steam-power packing machines, with a capacity of putting up 60,000 seed-packets per day, thus reducing the packing to a mere tithe of the old and expensive hand-packing system employed by most seedsmen. Buying my seed-bags by millions, contracting for or growing my seeds in immense quantities, and packing by the new steam-power system, my friends can readily see how I can afford to sell at such marvellous prices. I guarantee satisfaction. If errors occur I gladly correct them. I pay all postage, and aim to treat you just as though you were at my establishment in person. Reader, kindly consider this offer, and tell your friends of it. If you want some Booklets for distribution send for them. I shall appreciate any efforts you may make on my behalf, and every neighbor who loves good vegetables will thank you for calling their attention to this great Bargain Collection. Address

GEORGE W. PARK,

Libonia, Franklin Co., Pa.

Don't Waste Your Money

on Novelties in either Vegetables or Flowers. Nine-tenths of them are inferior to the good older varieties, and the other tenth is rarely better. In this Booklet you have the Cream of all the varieties, and at a cost of only 25 cents for the 26 packets. Why waste your money paying high prices. Order at once. Tell your friends,

Other Choice Varieties.

I can also supply the following at 3 cts. per pkt., or in larger quantities at prices quoted—all by mail, postpaid. The seeds are all first-class.

GEO. W. PARK, Libonia, Franklin Co., Pa.

Single and Double Petunias.

Special mixture, all varieties, 4 packets 10 cents, 1 packet 3 cents.

The Petunia is the flower for the people. The plants are easily started from seeds, and once started will take care of themselves, blooming freely and continuously throughout the season. The flowers are large and showy, of many colors and variegations, graceful in form and delightfully fragrant. Set a foot apart a bed of the plants is glorious, and defies storm and drought, ever bright and attractive. If

LARGE-FLOWERED SINGLE FRINGED PETUNIA.

grown in pots they are fine window plants for winter-blooming. They like a south window.

Large-flowered Single Petunias.—These are of enormous size, with frilled and fluted, and some with fringed margin, solid colors, veined and variegated, tигed and blotched; handsome.

NOTE.—All of my seeds of Single and Double Large-flowered Petunias were saved only from selected pot plants, and from flowers artificially fecundated. They are truly "ruffled giants," and their glowing colors and odd markings are wonderful. They are very superior and very fine.

Choice Hybrid Bedding Petunias.—These are exceedingly free-blooming. The plants branch, and soon cover a bed with rich, fragrant flowers, continuing so throughout the season, if not exhausted seeding. The flowers are not large, but show great diversity in colors, and elegant contrast in variegation. They are among the most useful and beautiful of our bedding annuals.

DWARF EDGING DOUBLE PETUNIA.

side of the house, and oh! such beauties! Equal to Orchids, and continued blooming till frost.—Mrs. K. D.

Harnal, Richland Co., Illinois, Nov. 11, 1901.
Mr. Park:—I think every seed of the packet of Petunias came up, and I had three double, one single fringed, with yellow throat, and a large purple one, also a large white one. I think the purple the largest Petunia I ever raised from seed. They were in bloom constantly throughout the summer, and some which were left out as late as Nov. 1. I have six lovely ones for my window.—Mrs. Geo. W. Colman, Essex Co., Mass., Nov. 11, 1901.

Edging Petunias, Finest Double, 1st quality, 4 pkts. 10c. 3			

Mr. Park:—I wish all flower-lovers could see the beautiful Double Fringed Petunia blooming in my window. You said "not all plants will produce double blossoms," but a good proportion of them did. They made a grand show through the summer, and when cold weather came I could not resist taking up one of the handsomest ones and bringing it into the house, although my space for plants is quite limited.—Mrs. F. E. Mann, Rice Co., Kas.

Mr. Park:—Of your Fringed Petunias nearly every seed came up. I transplanted in May to a bed on the South

Phlox Drummondii.

Complete Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Cuspidate and Fringed varieties in special mixture, 4 packets 10 cents, 1 packet.....	3				

NOTE.—The New Dwarf Phloxes are charming for pots or window boxes, the little branching plants appearing as balls of rich color. All of my seeds of Phlox are of finest quality, and the mixture excellent.

Mr. Park:—Your Phlox Drummondii well repays for the little care necessary to bestow upon it. The wide range of shades and variegations of coloring makes it a very desirable flower.—Mrs. B. F. Snyder, Logan Co., O.

Mr. Park:—The first flower seeds I ever purchased were from you when I was a young girl. Among them was Phlox Drummondii, and they were just the sweetest flowers I ever saw. There were all colors of them. Everyone who saw them admired them. I find all your seeds to be good, fresh, and true to name.—Mrs. Sallie F. Bowman, Madison Co., Tenn., Nov. 22, 1901.

Mr. Park:—I had, this summer, from your seeds, one of the most beautiful beds of Phlox Drummondii I ever saw anywhere. The bright shades of color were wonderful! I counted over thirty different varieties. Many persons stopped to admire them. I picked many bouquets and kept them in the house. All summer they have been a perfect delight to me.—A. J. Cook, Kent Co., R. 1., Nov. 25, 1901.

Gloxinia-flowered Pentstemons.

Complete mixture, all colors and shades, 4 pkts 10c, 1 pkt 3.

The new large-flowered hybrid Pentstemons are fine garden flowers. They grow two feet high, branch, and make showy, handsome plants, which bloom throughout the autumn. The flowers are not unlike Gloxinias in form, and show many shades and markings. They are of easy culture, and generally admired. Set eight or ten inches apart in a sunny bed, they make a fine display. Useful also for a low hedge or screen.

Dark Red and Scarlet shades, mixed.....	5
White and light shades, mixed.....	5
Blue and Violet shades, mixed.....	5
Complete mixture, all colors and shades, 4 pkts 10c, 1 pkt.....	3

Mr. Park:—Last spring I got a packet of your Gloxinia-flowered Pentstemons. I had never seen the flower before. The seeds came up nicely, and by the last of August I had five of the plants in bloom. As they are perennials I did not expect them to bloom this year. The flowers are very pretty.—Mrs. J. C. Budwig, Wayne Co., Mich.

GLOXINIA-FLOWERED PENTSTEMON.

Palafoxia Hookeriana, annual; rose bloom.....	3
Physalis Francheti, a handsome herbaceous perennial bearing wreaths of edible fruit with vermilion balloon-like covering, 4 pkts 10c, 1 pkt.....	3
Alkekengi, smaller than the above.....	5
Both varieties in mixture, 4 pkts 10c, 1 pkt.....	3

Podolepis , pretty composite annual, a foot high, with white, rose and yellow flowers.....	3
Pyrethrum , Golden Feather, golden foliage.....	3
Selaginoides, yellow, serrated foliage.....	3
Golden Gem, double white flowers.....	3
All varieties mixed, 4 packets 10c, 1 packet.....	3

Polygonum Orientale.

Complete mixture, tall and dwarf, 4 pkts. 10 cents 1 pkt. 3 cents.

If you want a graceful and showy autumn bed plant seeds of Polygonum either in the fall or early spring. Use the old-fashioned tall varieties for the center, and the new Multiflowered sorts for the margin. The plants are of the easiest culture, and a group of them in full bloom will surprise you with its showy display. Fine mixture.

New Dwarf Multiflowered, 3 ft. high; carmine flow's 3
New Dwarf Multiflowered, white, very floriferous, 3 feet high..... 3
Orientale, old-fashioned red, 8 feet high; sow early 3
New Variegated-leaved, green and white; red bloom 3
All varieties mixed, 4 packets 10 cents, 1 packet..... 3

Portulaca, Single and Double.

Complete mixture, all colors, 4 packets 10 cents, 1 packet 3 cents.

There are few brighter or prettier flowers than those of Portulaca, either single or double. The flowers are cup-shaped, large and showy, of all colors from white to deep crimson, also shades of yellow, and some striped and blotched. The plants are succulent, low and spreading; like a sunny, sandy bed, and are continuously in bud and bloom. I offer seeds of the large-flowered single and double varieties, all of the finest quality, and my mixtures are specially prepared. They are very showy.

LARGE-FLOWERED SINGLE AND DOUBLE PORTULACA.

White, striped.....	3	Golden Yellow.....	3	White.....	3
Bronze.....	3	Rose, striped red..	3	Straw color.....	3

Large-flowered Portulaca, single and double all in splendid mixture, 4 packets 10 cents, 1 packet..... 3					

When ordering colors state whether you wish single or double.

LARGE-FLOWERED PORTULACA.

Rudbeckia Bicolor Superba.

4 packets 10 cents, 1 packet 3 cents.

A beautiful composite a foot high, bearing golden yellow flowers with showy dark center. Grows quickly, and blooms early and abundantly. 4 packets 10 cents, 1 packet 3 cents.

Ricinus.

Special Mixture, 4 packets 10 cents, 1 packet 3 cents.

Showy foliage plants, known as Castor Bean. As easily grown as Corn. Very showy in a group, the taller in the center, and the dwarf sorts around. Fine for a screen.

Borboniensis, 15 feet high.....	3	Sanguineus, red, 8 feet high.....	3
Gibsoni mirabilis, red, dwarf, compact, fine border, 3 feet high.....	3	Zanzibariensis, separate or mx., e'ch	3
One pkt. of each variety (4 pkts.)	0	Special mixture of Ricinus, 4 packets 10 cents, 1 packet.....	3

Mr. Park:—One of the Ricinus plants from your mixed packet of seeds grew seven feet high, and was a fine garden specimen. Another was a dwarf, so I potted it and it is now a pretty plant in my window, just beginning to put forth its odd blossoms.—Mrs. S. Bok, Sullivan Co., Pa., Nov. 25, 1901.

RICINUS.

Sanvitalia procumbens fl. pl. compacta, a fine dwarf, yellow-flowered edging; 4 pkts. 10 cts., 1 pkt. 3

Saponaria Ocymoides Splendens.

Price, 4 packets 10 cents, 1 packet 3 cents.

SAPONARIA OCYMOIDES SPLENDENS.

Here is one of the most beautiful of hardy perennials, though but little known by the masses of people. Unless started very early the plants will not bloom the first season, but when once established they will never fail to delight you about May 30th with the most gorgeous display of delicate little flowers imaginable. It trails, and bears its lovely pink bloom in such profusion that it appears as a bright carpet, entirely hiding the foliage. Fine for a garden bed or for the cemetery. I offer only the improved variety. You will never regret spending a few cents for seeds of this superb flower.

Saponaria Multiflora.—I can also supply seeds of this fine dwarf annual, red, white and scarlet, separate or mixed: 4 packets 10 cents, 1 packet 3 cents. All of these Saponarias do well sown in early autumn, as well as in spring.

Mr. Park:—From the packet of your Saponaria ocymoides splendens received several years ago I raised two plants, each of which now covers a half yard of ground, and every spring is a mass of the daintiest pink blooms, while the foliage is thrifty till frost comes. It is perfectly hardy, and I know of nothing nicer for the cemetery.—K. E. Harvey, Mifflin Co., Pa., Nov. 30, 1901.

Mr. Park:—My Saponaria ocymoides splendens which I raised from the seeds you sent me covers the ground in early spring with a carpet of pink. I consider it a valuable addition to my perennials.—Lucy T. Hinds, Kennebec Co., Me., Nov. 22, 1901.

Large-flowered Salpiglossis.

Complete Special Mixture, 4 packets 10 cents, 1 packet 3 cents.

Only those who have seen the flowers of the large-flowered varieties of Salpiglossis have any conception of their beauty. They are not unlike a large Bedding Petunia in form, but with a soft, rich, velvety texture, mostly penciled and marked in the most striking and beautiful manner. The plants are of easy culture, bloom early and continuously, and are showy in a group. If better known this splendid annual would be very popular. Try it.

White with yellow.....	5	Crimson, rich.....	5	Black, very dark.....	5
Scarlet, very bright.....	5	Royal, purple.....	5	Black, veined gold.....	5
Purple with carmine.....	5	Rose, fine shade.....	5	Violet, yellow veined...	5
Sulphur, lovely.....	5	Violet, fine.....	5	Rose, gold-veined.....	5

All the above in splendid mixture, colors carefully proportioned, 1 pkt 10c, 1 pkt 3c
New Superbissima or Emperor Salpiglossis, very large flowers, 4 pkts 10c, 1 pkt 3c
Dwarf Salpiglossis, mixed colors, 4 packets 10 cents, 1 packet 3c

Mr. Park:—I had fine flowers of many colors from a packet of new Giant Salpiglossis. The veined and velvety colors ranged from white to almost black.—Mrs. Harris, Ingham Co., Mich.

SALPIGLOSSIS.

Salvias in Variety.

Complete Special mixture, all sorts, 4 packets 10 cents, 1 pkt. 3 cents.

Salvias are beautiful plants of the Mint family, blooming freely during summer and autumn. The prevailing shades are blue and scarlet. Fine for beds and borders, and some do well as pot plants. Easily grown from seeds.

Carduacea, blue, vermil. anthers	3	Horminum (Clary), mixed colors	3
Coccinea splendens, scarlet, fine	3	Patens, blue flowers; tuberous...	5
Roemeriana, scarlet, pretty.....	5	Farinacea, bright blue.....	3
Large Scarlet, fine for beds.....	3	Giant Scarlet, very large flowers	5
Early Scarlet, large-flowered.....	5	Silver Spot, spotted foliage.....	5

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park:—My sister got a package of your Salvia, and had a big bed of plants which was lovely.—Mrs. Bourne, Franklin Co., Mass.

Mr. Park:—I grew a Salvia splendens from your seeds last year. It produced full spikes of scarlet flowers.—Mrs. W. Barnes, Doug. Co., Kas.

SALVIA SPLENDENS.

Silene, Compact Varieties.

Splendid Mixture, 4 packets 10 cents, 1 packet 3 cents.

The compact varieties of Silene are charming hardy annuals for beds and edgings. Seeds may be sown either in fall or spring. The flowers are mostly pink and white, and produced so abundantly as to hide the foliage.

Rose Queen, fine rose-colored flowers	3	Snow King, lovely flowers, white	3
Bonnetti, double, purple, fine.....	3	Compact sorts mixed, 4 pkts 10c, 1 pkt	3

Scabiosa, New Large-flowering.

Finest Mixture, all colors, 4 packets 10 cents, 1 packet 3 cents.

There are few flower cultivators who do not know and love the old-fashioned Scabiosa or Mourning Bride. The New Mammoth, double-flowered varieties I offer, however, are far superior, the flowers being nine inches in circumference, double, ball-like in form, and showing a great variety of rich colors. The plants come readily from seeds, and once grown they will reproduce themselves from self-sown seeds. They are showy in the garden, and the long-stemmed flowers are charming for bouquets. This new race of flowers should be in every garden. By all means add it to your seed list. You will never regret it.

Dwarf Double, compact sorts, a foot high, bearing large, double flowers of many colors, 4 pkts. 10 cents, 1 packet.....	3		

Mr. Park:—If your patrons will try a package of your Large-flowered Double Scabiosa they will be more than pleased. I had a bed this summer, and they were beautiful—white, pink and two shades of red, large blossoms until heavy frosts came.—Mrs. Eliza Titus, Monroe Co., Mich.

SCABIOSA—NEW LARGE-FLOWERED.

Senecio---New Pompon.

Special Mixture, 4 pkts. 10c., 1 pkt. 3c.

I offer new varieties of Senecio elegans, with elegant pompon flowers. Grow a foot high, branch freely, and produce masses of lovely double flowers of many fine colors. They are splendid for beds, and the flowers are useful for bouquets. My seeds of these are of the finest quality, and plants raised from them will yield the best double flowers. They will certainly please those who try them.

Cream.....	5	Purple.....	5
Flesh.....	5	Red.....	5

All colors in special mixture, 4 pkts. 10c., 1 pkt. 3c.

Senecio Elegans.—This beautiful hardy annual from the Cape of Good Hope has for generations been a favorite garden plant. The double flowered varieties are the showiest and most desirable. The plants grow best in a rich, sandy loam, and bloom from July to October, according to time of sowing. They look best in good-sized masses.—The English Flower Garden.

SENECIO ELEGANS.

<i>Schizopetalum</i> Walkeri, white, fragrant, pretty	5
<i>Sedum</i> ceruleum, blue Stone Crop; dwarf, free-blooming plants for rockeries or stony beds...	5
<i>Shortia</i> Californica, ½ ft., Daisy-like yellow bloom	5

<i>Solanum</i> , plants with ornamental foliage and showy fruit; special mixture, 4 pkts. 10c., 1 pkt.	3
<i>Sphenogyne</i> speciosa, a foot high; flowers daisy-like, yellow with brown.....	5

Schizanthus--Butterfly Flower.

Complete Mixture, 4 packets 10 cents, 1 packet 3 cents.

PARK'S SCHIZANTHUS RETUSUS.

Mr. Park:—Your Schizanthus or Butterfly Flower is a beautiful plant for the window garden. Both foliage and flowers are delicate and beautiful. The plants bloom continuously all winter in-doors, and planted out will bloom all summer, resisting drouth. The flowers are lovely for cut flowers, last long, and are so delicate. They can not help but please everyone. There are many colors. I have several colors in one pot, and when in bloom look as though there were many colored blooms on one plant. Seeds are very cheap and all lovers of delicate and beautiful flowers should try them.—Mrs. Jennie Dewese, Morgan Co., Ill., Nov. 16, 1901.

Very beautiful, everblooming half-hardy annuals, alike valuable for beds in the garden or pots in the house. The plants are easily started, begin to bloom early, produce their flowers in wonderful profusion, and are showy for a long time. The flowers are rich and graceful, borne upon slender stems, and at a distance appear as if floating in the air, hence are often called Butterfly Flowers. *S. retusus*, shown in the engraving, has larger flowers than the others, and is fine for the window as well as the garden. Started in mid-summer the plants bloom well in a sunny room in winter.

Stock--Ten Weeks.

Complete Mixture, 4 packets 10 cents, 1 packet 3 cents.

The Ten Weeks Stock possesses all the elements of a perfect flowering annual. The plants are easily grown, will thrive in any good garden bed, begin blooming early, and continue to make a fine display throughout the season. The flowers are large and showy, double, borne in spikes, are of all shades from white to rich crimson, also shades of purple, brown, and ash, and all deliciously scented. The plants bloom well in pots, as well as in garden beds, and are fine for the window. My seeds are from selected pot plants. There are none better.

TEN WEEKS STOCK

Dwarf German, a handsome variety, compact, and bearing flowers of many rich colors, 4 pkts. 10 cts., 1 pkt. 3	
Dwarf Large-flowered, very superior sort; flowers double, early and free-blooming; 4 packets 10 cents, 1 pkt. 3	
Giant Perfection, grows 2½ feet high, bearing large spikes of splendid flowers; good for beds, mixed colors... 5	
Victoria Bouquet, a favorite variety; very fine double flowers in large spikes; mixed colors..... 5	
Wallflower-leaved, large double flowers of many colors; mixed..... 5	
Globe Pyramidal, very fine variety of pyramidal growth; large and handsome flowers; mixed colors..... 5	
Excelsior Perpetual, one of the finest, beginning to bloom very early, and keeping in bloom perpetually for many weeks; white, rose, crimson, violet, yellow, pink, flesh, blue and brown, separate, each, per packet 5	
Special mixture of all colors, 4 packets 10 cents, 1 packet..... 3	
Princess Alice, bears splendid large spikes of white flowers; a beautiful Stock..... 5	
Giant Perpetual White, grows 2½ feet high, bearing one enormous spike of large, double, pure white flowers 5	
Dwarf Queen, grows a foot high, producing spikes of intense blood-red, double flowers; fine for pots..... 5	
Sky Blue, a fine blue variety of pyramidal growth, and Snowflake, a dwarf white Stock, for pots, each..... 5	
Ten Weeks Stock, all varieties, shades and colors, in splendid mixture, 4 packets 10 cents, 1 packet..... 3	

Mr. Park:—I had a plant of Ten Weeks Stock in the house last winter; in the spring bedded it out. It bloomed all summer, and was a mass of flowers in autumn. I potted it, and it is now doing finely.—Mrs. M. M. Burnham, Charlevoix Co., Mich., Nov. 7, 1901.

Mr. Park:—The seeds of everblooming Ten Weeks Stock I received from you last spring grew nicely, and I had such lovely flowers. They lasted all summer, until hard frosts.—Mrs. S. E. Bobo, Fresno Co., Cal., Nov. 14.

Tropæolum---Tom Thumb.

Dwarf Nasturtium, special mixture, 4 pkts. 10 cents, 1 pkt. 3 cents.

There are few brighter or more satisfactory annuals for beds or pots than the Dwarf Nasturtiums. Anyone can grow the plants from seeds, and they thrive in any soil or situation. They grow a foot high, and are a mass of splendid flowers throughout the summer and autumn, especially when kept from seeding. White, scarlet, crimson, yellow and spotted, are the best for bedding, and I can supply these separately for that purpose at 15 cents per ounce. My special mixture contains all the colors, carefully proportioned, and the plants from it make a fine bed.

Mr. Park:--For a variety of bright colors nothing can exceed your Nasturtiums. My plants from the seeds bought of you blossomed till frost, and were very showy and beautiful.—Mrs. Ruth A. Day, Jefferson Co., Ala., Nov. 29, 1901.

TROPÆOLUM—DWARF NASTURTIIUM.

Valerian---Fragrant.

Special mixture, 4 pkts. 10 cents, 1 pkt. 3 cents.

Valerian is a lovely perennial that blooms the first season. The plants grow a foot high, and bear small, pretty flowers in large clusters, as shown in the illustration. They are showy in the garden and fine for bouquets, being delicate, graceful and sweet scented. Known as Garden Heliotrope. They are very fine.

White.....	5	Scarlet.....	5	Red.....	5	Rose.....	5
Special mixture, all sorts,	4 packets 10 cents, 1 packet.	3					

Valerian.—This is a handsome hardy border plant from the Mediterranean. It produces stout, erect stems, rather woody at the base, terminated in bold clusters of numerous small flowers. It begins to bloom in June and continues throughout the summer. It requires only ordinary garden soil, and occasional lifting and cutting in. It grows well on the crumbling walls of an old ruin, and is useful for planting on dry rockwork.—English Flower Garden.

FRAGRANT VALERIAN.

Violas---Tufted Pansies.

Special Mixture, 4 packets 10 Cents, 1 packet 3 cents.

The so-called Tufted Pansies are hybrids and varieties of *Viola cornuta*. The plants are as hardy and as easily grown as Pansies, and the flowers are freely and continuously produced throughout the season. They thrive in a moist, and cool, partially shaded place. I have a splendid collection, all with large, showy, fragrant flowers, and fine for bedding. The seeds I offer are of the best quality and very fine.

Dark Blue.....	5	Pure White.....	5
White and blue.....	5	Blue with white.....	5
Light Blue.....	5	Yellow.....	5
Mauve.....	5	Rich Purple.....	5
Special mixture of all the varieties, 4 packets 10			
cents, 1 packet.....	3		

Mr. Park:--Your Violas are "Sweeter than all the Roses," and so easy of culture! Just imagine a potful of the plants, covered with 50 large, rich-colored blossoms, and you have some idea of their beauty. They are so fragrant that the entire house is perfumed by them.—Mrs. C. M. Thompson, Osage Co., Kan.

BEDDING VIOLA—TUFTED PANSY.

Venidium fugas, a neat, free-blooming, trailing plant; flowers yellow, covering the plant.....	5
Veronica , edging plants with spikes of blue and white flowers; mixed.....	5
Viscaria , fine annual for masses; flowers cup-like, bright, showy and beautiful, mixed.....	5

Vinea rosea, lovely pot and bedding plant; Phlox-like flowers; white, rose and eyed; each 5c., m'x'd	3
Virginia Stock , pretty, free-blooming annuals; white, crimson and yellow, each 5 cts.; mixed...	3
Whitlavia gloxinoides, annual, 1 ft.; lovely blue and white bell-flowers; mixed.....	3

Fragrant Verbenas in Variety.

Complete Mixture, 4 packets 10 cents, 1 packet 3 cents.

VERBENA PLANT AND CLUSTER.

Mr. Park:—I sowed a paper of mixed Verbenas seeds purchased of you last spring, and used the plants for edgings to my Geranium beds. It is astonishing how they grew, and how soon they began to bloom, and with what persistence they kept it up. I potted a number of them for early spring planting, but those left in the beds are still blooming, and we have had several hard frosts.—John T. Irion, M. D., Henry Co., Tenn., Nov. 18.

New Parisian Wallflower.

Price, 4 packets 10 cents, 1 packet 3 cents.

The Wallflower is very popular in England, and would be a favorite in America, if the plants would endure our northern winters. The New Early Parisian Wallflower, however, overcomes the barrier by flowering freely the first season from early-sown seeds. Simply start the plants in a window box early in spring, and transplant to a cool, moist garden bed. You will be greeted throughout the autumn with masses of the rich, fragrant clusters. Plants grown in pots will do well in a cool room, blooming freely during the winter. 4 packets 10 cents, 1 packet 3 cents.

Mr. Park:—I have several plants of your Early Parisian Wallflower now in bloom. The old kinds do not bloom till the second year, but these plants are in bloom seven months after sowing. They make a lovely house plant, being very fragrant, and lasting a long time in bloom. The color is a beautiful shade of yellow and dark red. —Mrs. C. A. Graham, Sedgwick Co., Kans., Nov. 25, 1901.

NEW EARLY PARISIAN WALLFLOWER.

Zinnias, Choice Double.

Complete mixture, 4 packets 10 cents, 1 packet 3 cents.

No annual is of easier culture than the Zinnia, and few are more satisfactory than the new double-flowered kinds. The seeds start in three or four days, and the plants show buds when but a few inches high. Throughout the season they grow, bud and bloom, showing rich green foliage and beautiful flowers. For a group the Mammoth Zinnias are fine; for a showy bed the Semi-dwarf varieties are splendid; and for window boxes, or for bouquet flowers, the Lilliput sorts are admirable. My seeds were saved only from selected plants, and can be relied upon to produce the finest and richest flowers.

NEW DWARF BEDDING ZINNIAS.

New Semi-dwarf Zinnias, white, scarlet, golden yellow, crimson, striped, violet, purple, salmon, each 5
The colors in splendid mixture, 4 pkts. 10c, 1 pkt. 3
New Mammoth Zinnias, separate colors..... 5
Special mixture, 4 packets 10 cents, 1 packet..... 5

Mr. Park:—Last year I raised your Zinnias, and was pleased with them. The flowers were the largest I ever saw, and bloomed till killed by a heavy frost. Everybody admired them.—Mrs. G. B. Marcus, Marion Co., O.

New Fringed, white-flowered Zinnia, double..... 5
New Crispa, with wavy petals..... 5
New Lilliput, scarlet, gold, lilac and white, each..... 5
Mixed colors, 4 packets 10 cents, 1 packet..... 3
Zinnia, all varieties mixed, 4 packets 10 cts., 1 pkt. 3

Everlastings and Grasses.

Large packet, complete mixture, 10 cents, 3 packets 25 cents.

The Everlastings and Grasses are ornamental in garden beds, and if cut and hung up in a shady place during summer will retain their form and color, and are admirable for winter bouquets. They are all easily started from seeds.

<i>Aeroclinium</i> roseum, fl. pl., rose.....	5
Album fl. pl., white.....	5
Both varieties mixed, 4 packets 10 cents, 1 packet	3
Pretty, slender plants a foot high, bearing flowers an inch in diameter. Fine for bouquets.	
<i>Ammobium</i> alatum grandiflorum, two feet high, bearing numerous small white flowers. One of our best everlastings.....	3
<i>Gomphrena</i> globosa, crimson.....	5
White, Flesh, Striped and Rose, each.....	5
Tall varieties mixed.....	3
Dwarf varieties, separate or mixed.....	3
Very showy in the garden, and fine for bedding, the dwarf sorts used as edgings. A beautiful everlasting; retains its form and color perfectly.	
<i>Helipterum</i> Sanfordii, a foot high, with large clusters of golden bloom.....	3
<i>Helichrysum</i> Monstrosum, white, purple, rose, salmon, crimson, each.....	5
All colors mixed, 4 packets 10 cents, 1 packet.....	3
Grows 18 inches high, flowers large, double, rich-colored and showy. A fine everlasting, as well as a good garden flower	
<i>Rhodanthe</i> , a lovely everlasting, either in the garden, or for winter bouquets; flowers white, rose, crimson, etc., mixed.....	5

<i>Gypsophila</i> , neat annual, excellent for bouquets either green or dry; colors rose and white, m'd	3
<i>Xeranthemum</i> , Double, purple, white and rose, separate, each.....	5
Pompon-flowered, purple, white and rose, each.....	5
All varieties in splendid mixture, 4 packets 10 cents, 1 packet.....	3
Very handsome, easily grown annuals, with showy flowers on long stems. Cut when fully developed. One of the best.	
Everlastings in complete mixture, large packets, 10 cents each, 3 packets.....	25

ORNAMENTAL GRASSES.

<i>Zea Japonica</i> gigantea, the Giant variegata Maize, Ornamental Grasses in complete mixture, 3 packets 25 cents, 1 packet.....	10		
Everlastings and Grasses in complete mixture, 3 packets 25 cents, 1 packet.....	10		

ORNAMENTAL CLIMBERS.

Complete mixture of all varieties, large packet, 10 cts., 3 pkts. 25 cts.

Ornamental Climbers are useful for covering pillars, trellises and summer-houses with foliage and bloom. Furnish support as soon as the plants show a disposition to climb. Every flower-lover should grow them.

Cardiospermum in Variety.

Special Mixture, 4 packets 10 cents, 1 packet 3 cents.

CARDIOSPERMUM HIRSUTUM.

Very graceful, rapid-growing vines with clusters of small white flowers, succeeded by inflated balloon-like capsules, from which the name of Balloon Vine is derived. Very fine trellis plants. Grow six feet high. All flower-lovers should give them a trial.

<i>Hirsutum</i> a rare and lovely variety, see engraving.....	5
<i>Halicacabum</i> , the well known sort.....	5
Special mixture, 4 packets 10 cents, 1 packet.....	3

Mr. Park:—Why is so little said about *Cardiospermum* or Balloon Vine? It is a curious, half-hardy, annual climbing plant, and will, with a little attention, cover a considerable space.—C. E. Parnell, Queens Co., N. Y.

Cardiospermum hirsutum is a very beautiful climbing plant. Seeds started in the house and transplanted in May to the open air, will begin to bear elegant clusters of white flowers when a few inches high, and bloom incessantly. Later the whole plant is adorned with charming balloon-like seed-pods.—Italian Florist.

<i>Abobra</i> viridiflora, a neat little perennial plant of the Gourd family.....	3
<i>Centrosema</i> grandiflora, a pretty leguminous vine, 3 feet high; flowers pea-like; very pretty.....	3
<i>Clitoria</i> ternatea, a vine growing five feet high, with clusters of bean-like flowers.....	3
<i>Calampelis</i> scabra, a lovely perennial vine; both foliage and flower clusters very handsome.....	8
<i>Coccinea</i> Indica, a rapid-growing vine with bright scarlet fruits.....	3
<i>Cypress Vine</i> , 8 ft. high, pretty foliage; bright star-like flowers. White, rose and scarlet, each	5
All colors mixed, 4 packets 10 cents, 1 packet.....	3

<i>Cobaea</i> scandens, grows 30 ft., bearing handsome foliage and large, purple, bell-shaped flowers throughout the season. 4 pkts 10c, 1 pkt 3	
<i>Cobaea</i> , white and <i>Macrostema</i> each, per packet.....	10
Mr. Park:— <i>Cobaea</i> is my favorite vine. It grows quickly from seeds; is never troubled with insects. Foliage and flower are lovely, fresh till frost.—Mrs. T. Ervine, Calaveras Co., Cal., Dec. 1, 1901.	

COBÆA.

Dolichos---Hyacinth Bean.

Complete Special mixture, 4 packets 10 cents, 1 packet 3 cents.

This is a desirable vine, not only for its numerous clusters of white and purple bloom, but for the showy, Hyacinth-colored bean-pods which succeed the flowers. The plants are as easily grown from seeds as Scarlet Runner, and with the showy flowers and shining purple "beans" are objects of attraction and admiration. They are excellent vines for covering summer-houses, fences or old trees. Easily transplanted. Both seeds and pods are edible.

White 5 | Purple..... 5 | Princess Helene..... 5 | Mixed 4 pkts 10c, pkt 3

Mr. Park:—Last March I planted three seeds of Dolichos. The plants proved to be hardy, handsome vines, of rapid, dense growth. They very quickly reached a height of ten or more feet, and covered a space equally wide. Although an annual, on account of rapid growth the plants are useful for covering fences and unsightly places.—Mrs. J. A. R., Santa Clara Co., Cal.

Mr. Park:—Last spring I received a packet of Dolichos. I planted them early in April, near an old fence that I wished to cover up. Now they are still covered with their large sprays of lovely flowers, three or four colors, and bunches of beans in different stages of development. These are the most attractive things in the garden.—L. C. F., Son. Co., Cal., Nov. 30.

Mr. Park:—Last spring I dropped some seeds of Dolichos or Hyacinth bean in a rich bed under my Snowball tree, and the trees are again covered with bloom, of a different form and color. The glossy purple bean pods, as well as the flowers are showy and handsome.—M. M. Tate,

DOLICHOS—HYACINTH BEAN. McDowell Co., N. C., Sept. 22, 1901.

Gourds and Cucumbers in Variety.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

Members of the Gourd family are numerous, and nearly all are interesting in both flowers and fruit. Some are delicate and graceful vines, with neat foliage and pretty little Gourds of various colors, showy on the vine, and prized as winter toys for children. Some bear large leaves, golden flowers, and immense Gourds, weighing upwards of 200 pounds, the vines useful to hide unsightly fences or buildings; and the fruit for pies. *Luffa acutangula* is a splendid vine with large, silky golden flowers and long fruits, the network of which is used in scouring or washing. The *Lagenarias* are shaped as dippers, bottles, clubs, etc. The Nest Egg Gourd is pretty as a vine, and the fruits are useful as nest eggs. *Cucumis flexuosus* is the Snake Cucumber, with serpent-like fruits several feet long. *Cyclanthera explodens* and *Bryonopsis laciniosa* are charming vines, rapid in growth, delicate in foliage, and bearing curious and pretty little fruits. All are easily grown from seeds. Do not overlook the Gourds when you make up your order.

ORNAMENTAL GOURDS.

<i>Lagenaria vulgaris</i> , mixed.....	5	<i>Cucumis flex.</i> , snake cucumber.....	5	<i>Bryonopsis laciniosa</i>	5
Dipper Gourd.....	5	Hundred weight Gourds, yellow,		<i>Cyclanthera explodens</i>	5
Hercules Club.....	5	orange, green, striped, mixed	5	<i>Luffa acutangula</i> , Dish Cloth.....	5
Bottle Gourd.....	5	Tricosanthes, Snake Gourds.....	5	<i>Cucurbita ovifera</i> , Egg Gourd.....	5
Corsica or Dish.....	5	Momordica, mixed.....	5	Angora Gourd.....	5
Sugar Trough.....	5	Turk's Turban, mixed.....	5	Mixed, 4 packets 10 cents, 1 packet	3

Mr. Park:—For covering unsightly buildings, fences or old stumps nothing can equal Gourds. The most ornamental way to grow them is to purchase a mixed package of the seeds and grow all kinds together. Then when the vines are covered with fruit they form a curious and pleasing contrast. Gourds are useful also, as well as ornamental. The Nest-egg Gourd is useful, especially in winter, as a nest egg, for hens' eggs will freeze, and china eggs often get broken. Again, there is the Dipper Gourd that is useful in numerous ways, and the Sugar Trough Gourd, which holds from three to ten gallons. It makes fine nest boxes, salt receptacles, buckets, etc. In fact, there are no ornamental plants more useful than Gourds.—L. Slotter, Washington Co., O.

Three Fine Vines.—I offer *Luffa*, *Bryonopsis* and *Cyclanthera* in special mixture. They are beautiful, vigorous vines, always admired. The *Luffa* has large black seeds, *Cyclanthera* flat, winged ones. Separate before sowing. This mixture will please every lover of pretty vines. 4 packets 10 cents, 1 packet..... 3

Dear Mr. Park:—Last spring I planted a packet of your *Luffa* seeds in the house in March, and every seed grew. I set the plants by an Apple tree, and they completely covered it. The blossoms were beautiful and fragrant. It was new to everyone, and admired by all.—Mrs. M. S. Newton, Goodhue Co., Minn., Nov. 19, 1901.

Humulus==Variegated Hop.

Price, 4 packets 10 cents, 1 packet 3 cents.

This is an annual from Japan, very rapid in growth, and bearing dense foliage bordered with white. It is one of the most showy of variegated-leaved climbers, and is as easily grown from seeds as a Morning Glory. The seeds can be sown early, where the plants are to stand.

Mr. Park:—I think the Variegated Hop a grand vine. I planted seeds five years ago and have had volunteer plants along my garden palings ever since. I put Asters along the fence, so that makes the leaves appear more white. I have no trouble keeping them where they belong.—Mrs. N. V. Meadows, Butler Co., Iowa, Dec. 14, 1901.

Mr. Park:—The Japanese Hop Vines did especially well for me last year. I had never seen any of the Vines before, and they were new to me. They were beautiful.—Mrs. A.T. Smith, War. Co., N.Y., Nov. 17, 1901.

Humulus Japonicus, or Japanese Hop, is a vigorous climber twelve feet high, and bearing yellowish flowers in July. It is very suitable for covering trellises, or for hiding unsightly objects, especially the variegated form with cream, silver, and green foliage.—Book of Gardening.

VARIEGATED JAPANESE HOP.

Morning Glories.

Complete mixture, 4 packets 10 cents, 1 packet 3 cents.

The old-fashioned Morning Glory will always retain a prominent place at the country and village homes. It is linked in memory with some of the sweetest of life's associations, and the love we bear toward it will ever be cherished. The new, improved varieties, however, give us larger flowers and a greater range of colors than we knew in by-gone years. They are highly recommended.

White.....	3	White striped rose.....	3
White striped violet.....	3	Rose.....	3
Tricolor.....	3	Carmine.....	3
Dark Red.....	3	Scarlet.....	3
Lilac.....	3	Dark Blue.....	3
Light Blue.....	3	Royal Purple.....	3
All varieties, special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.			
Morning Glory, double, in fine mixture, per packet.....			

JAPANESE MORNING GLORIES.

Mr. Park:—You ought to have seen my city friends admiring my beautiful Morning Glories. They would stand and look at them, then say, "What large leaves! so full of bloom! and what lovely shades!" They were fine.—Mrs. H. W. Megrail, Jefferson Co., Ohio, Nov. 15, 1901.

Dear Mr. Park:—I received a packet of Morning Glory seeds from you last spring, and planted them around a dead tree. They grew, and were, oh, so beautiful, covering the entire tree. Everyone admired them. I would advise everyone to get their Morning Glory seeds from you.—Mrs. J. S. Conrad, Marshall Co., Tenn.

New Imperial Japan Morning Glories.—These are varieties of the large-flowered *Ipomoea limbatata*. The plants are more delicate than the common Morning Glory and not so free-blooming, but show a wonderful variety of shades, many odd, some strikingly variegated. My seeds of these are very choice, from Japan, and the flowers will reveal the finest shades and variegations. 4 packets 10 cents, 1 packet 3 cents.

Mr. Park:—I think the Japanese Morning Glory one of the easiest grown and pretty of the garden flowers in cultivation. I received a packet of the seeds from you two years ago, and both seasons they have grown and bloomed profusely, and are still a mass of bloom, all colors, and double and single.—Mrs. L. C. French, Sonoma Co., Cal., Nov. 30, 1901.

Ipomoeas.—These are much like Morning Glories in foliage, flower and habit. They are all of rapid growth, and fine for trellises, walls or screens. All are easily grown.

Coccinea, scarlet.....	3	Leari, blue, fine.....	5
Lutea, yellow.....	3	Limbata elegantissima.....	3
Hederacea, the Ivy-leaved Morn'g Glory; mixed colors.....	3	Nil grandiflora.....	5
Splendid mixture, all sorts, 4 pkts. 10 cents, 1 pkt.....	3	Violacea vera, blue.....	5

Loasa lateritia, a showy annual vine; orange flowers; foliage covered with stinging hairs..... 5

Lophospermum scandens, a handsome vine, the root of which may be wintered in the cellar. Velvety foliage and large, tubular rosy flowers. Sow in a window, early, to bloom in summer... 3

Moon Flowers. Easily grown from seeds. Bona Nox has clusters of small flowers, and Mexican white bears large flowers. Both are very fragrant, and very free-blooming. Separate or mixed..... 5

Mina lobata, a quick-growing vine much like *Ipomoea coccinea*, but bearing racemes of scarlet flowers not unlike scarlet *Salvia* at a distance..... 3

MAURANDYA.

Maurandya, one of our finest, most graceful vines. Plants start readily, grow in a dense mass six or eight feet high, and are covered in autumn with showy, bell-shaped flowers. Everyone ought to have this splendid vine. I can supply the colors, from white to deep purple separately, at 5 cents per packet, or all in splendid mixture at 4 packets 10 cts., 1 packet 3

Mr. Park:—My Maurandya from your seeds were beautiful. They climbed several feet high, and were a mass of pretty, fine foliage, and *Digitalis*-like flowers, white, rose and purple. I wintered some in the house, planting out in the spring, and they bloomed all season. They were lovely even after severe frosts. I advise all of my friends to try Park's Maurandya.—Mary Bates, Providence Co., R. I., Dec. 7, 1901.

Park's Large-flowered Sweet Peas.

Complete mixture, per lb. 50 cts., one-fourth lb. 15 cts., one oz. 5 cts.,
4 packets 10 cents, 1 packet 3 cents.

SWEET PEAS.

They bloom continuously, if cut freely, to prevent seed development. An ounce will sow a row from 25 to 50 feet long. Cover half an inch deep. Furnish support early.

Mr. Park:—Your large-flowered Sweet Peas are beauties. The seeds germinated for me promptly, and the plants began to bloom early, continuing until frost. The large, bright-hued blossoms were a charming sight, and the air was perfumed by their delicious odor.—Mrs. Emma Holmes, Effingham Co., Ill., Dec. 13, 1901.

Mr. Park:—The mixed Sweet Peas purchased from you were indeed more than represented. It seemed as if every plant produced a different color. They were planted in good soil, on the east side of the house. They blossomed finely. We gathered large bouquets nearly every day.—Mrs. S. B. Kilmer, Sull Co. Pa., Nov. 5, 1901.

Choice Climbing Tropæolums.

Complete mixture, lb. 80 cts., $\frac{1}{4}$ lb. 25 cts., oz. 8 cts., 4 packets 10 cts., 1 packet 3 cts.

The Climbing Tropæolums or Nasturtiums are lovely vines, growing quickly, and blooming all season. The flowers are large, delicate, delightfully fragrant, borne freely, and appear in many exquisite shades, from pearl white to rich, dark crimson, as well as yellow and silky bronze. Many are attractively blotched or spotted. Placed in a vase with some of the foliage they are fine for table or room decoration. The vines have clean, dense, rich foliage, and are fine for covering trellises or unsightly rocks or stumps. My mixture contains all the sorts, and is unsurpassed.

Atropurpureum, crimson.....	3	Luteum, fine yellow.....	3
Chameleon, variously colored.....	3	Pearl, whitish, very pretty.....	3
Coccineum, dazzling scarlet.....	3	Prince Henry, sulphur, marbled scarlet	3
Dunett's Orange, bright orange.....	3	Regellianum, purple, crimson.....	3
Edward Otto, rich bronze.....	3	Scheuerianum, straw color, spotted....	3
Flammulum, scarlet and yellow.....	3	Coccineum, scarlet, spotted.....	3
Hemisphericum, orange.....	3	Schillingi, light yellow.....	3
Hunneimanni, brown, odd.....	3	Vesuvius, salmon.....	3
King Theodore, dark foliage.....	3	Von Moltke, blush rose.....	3

Complete mixture, lb. 80 cents, fourth-lb. 25 cents, oz. 8 cts., 4 pkts. 10 cts., 1 pkt. 3 cts

My seeds of Climbing Nasturtiums are all of the large-flowered Giant sorts. There are none better.

Mr. Park:—Last spring I received a packet of your Climbing Nasturtiums, which I planted in rather poor soil. They bloomed constantly for nearly four months, and such beautiful, large, fragrant blossoms, and such a variety of colors! They are among the "must haves".—Grace Owens, Will Co., Ill., Nov. 12, 1901.

Mr. Park:—If I could only have six annuals, the Nasturtium would be one of them. It's not only a good bedding plant, but makes quite a pretty one for a winter box.—Mrs. I. L. Pierson, Wood Co., Tex., Nov. 15, 1901.

Tropæolum Peregrinum, the lovely Canary-bird Flower. A splendid vine, 4 pkts. 10 cts., 1 pkt. 3 cts.

Scarlet Runner, a showy, scarlet-flowered Bean, blooming freely when not allowed to form seeds. A fine trellis or arbor vine. Beans are edible. 4 pkts. 10c., 1 pkt. 3c.; white, and white with pink, each, 6c.; mixed, 4 pkts. 10c., 1 pkt. 3

Thunbergia, a lovely vine, 6 feet high, with white, yellow and salmon colored flowers. Very pretty for a hedge or screen. Blooms all summer. Six varieties, separate, each, 5 cts. per pkt., all varieties mixed, 4 pkts. 10c., 1 pkt. 3

NASTURTUM.

BIENNIALS AND PERENNIALS.

Many varieties mixed, large packets, 3 pkts. 25 cts., 1 pkt. 10 cts.

These mostly bloom the second season. All are hardy. The Biennials die after blooming, but the Perennials live and bloom for many years. They are very desirable garden flowers, as they require but little care after the plants are established, and are showy and beautiful. No person who starts a bed of these flowers will ever regret it.

Aquilegia=Columbine.

Complete Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Very beautiful, hardy perennials. Flowers both single and double in form, and of all shades of red, white, blue and yellow. The sorts offered are mostly large-flowered. All bloom in the spring, and some continue to bloom all summer. My complete mixture will show a great variety, and will please all who sow of it.

Complete special mixture 4 pkts. 10 cents, 1 pkt. 3

Aquilegia (Columbine) is a genus of free-blooming subjects of easy culture in ordinary garden soil. They are suitable for beds, borders and shrubberies, and thrive in a shady situation. They are also very beautiful when naturalized in grass; and the flowers are also prized for cutting.—Book of Gardening.

Mr. Park:—I would advise everyone to sow at least a packet of seeds of Aquilegia. They are among the most satisfactory of perennials; flowers single and double, produced in early spring. Seeds may be sown in July for blooming the following spring. Hardy.—C. Mollett, Martin Co., Ky., Nov. 25, 1901,

AQUILEGIA CERULEA.

Adlumia Cirrhosa.

Mixed colors, 4 packets 10 cents, 1 packet 3 cents.

ADLUMIA CIRRHOSA. where a graceful, Biennial vine is wanted.

Mixed, 4 packets 10 cents, 1 packet 3 cents.

This is a lovely vine, hardy, and thrives in a dense shade, where few other vines will grow. It climbs 20 feet high, bearing foliage as delicate as a Maidenhair Fern, and exquisite, waxy, rose or purple flowers in clusters in great profusion. It is one of our handsomest vines, and fine for a trellis, or any place

Giant Armeria.

Mixed colors, 4 packets 10 cents, 1 packet 3 cents.

This is a splendid perennial, hardy, two feet high, bearing large heads of rose-colored flowers. Once established the plants will last for years, and make a fine display every season. It is one of the choice perennials of easy culture too rarely seen. Mixed, 4 pkts. 10c., 1 pkt. 3c.

Bell Flowers or Campanulas.

Complete mixture, 4 packets 10 cents, 1 packet 3 cents.

CAMPANULA MEDIUM (CANTERBURY BELL)

Special mixture of Single, Double and Calycanthema varieties, carefully proportioned, 4 pkts. 10. cts, 1 pkt. 3 cts.

Mr. Park:—My Canterbury Bells (C. Medium) from your seeds were the admiration of everybody. I had several varieties, all beautiful.—Mrs. S. J. Grines, Pauncersville, Tex., Dec. 9, 1901.

Carpatica, 1 ft. high, beautiful cup-shaped flowers during July and August, mixed..... 5
Grandis, 2 feet high, flowers 2 inches across, showy; in bloom June and July..... 5
Macrantha, 5 ft. high; broad leaves and large, open flowers, a splendid sort..... 5
Mirabilis, new; not unlike the old Canterbury Bell; very fine..... 5

Mr. Park:—What lovely flowers my Campanula from your seeds produced, and, oh, what bright colors! The plants were raised by frost during winter, but in the spring I pressed them down and mulched with well-rotted manure, and they grew and bloomed finely.—Mrs. L. A. Davenport, Hamilton Co., O. Nov. 18 1901.

The Bell Flowers are a very interesting and beautiful class of plants. They are gathered from all parts of the world, and vary in habit and in the form and size of flowers, as well as in color. Campanula Medium in its numerous varieties is one of the best known and most showy and handsome. The plants mostly grow eighteen inches high, and are covered with large bells, as shown in the engraving. Some varieties bear double flowers, and C. calycanthema is semi-double, having the form of a cup and saucer. C. Pyramidalis is a splendid sort, useful for either garden beds or pots in the house. I found this a popular market plant in Paris. C. Persicifolia is lovely, also C. turbinata. Nearly all are hardy, and deserve a bed in every garden. They like a sunny place and a well-drained soil. The plants bloom the second year, and most of the species live and bloom for several years. Plants of C. Medium should be started every year to keep up a supply.

Garden Carnations.

Finest special mixture, 4 pkts. 10 cts. 1 pkt. 3 cts.

The Hardy Carnations are among the most beautiful and useful of our garden flowers. They bloom for many weeks during the early part of the season, making a fine show, and filling the air with delicious perfume. Plants from the choice seeds I offer will bear very large flowers of all shades from white to dark crimson, also yellow shades and striped, a large percentage double. Started early the plants will often bloom the first season. The seeds are not surpassed by offerings of any other seedsman, regardless of price.

Choice Garden Carnations in splendid mixture, 4 packets 10 cents, 1 packet..... 3

Mr. Park:—Let me speak a word for your Garden Carnations. I purchased a package of seed in the spring, sowing them early indoors, and transplanting to the open ground in May. Notwithstanding the drought, they have bloomed the entire fall and latter part of summer, and are just as fine in form and fragrance as any hot house Carnation. I counted six distinct colors. I was doubly repaid for my care of them, besides having a number of fine plants for next year.—Mrs. Delbert Bennett, Moultrie Co., Ill.

Mr. Park:—I have always had good success with your Carnations. They bloom for several months in the garden, and the flowers are beautiful and so fragrant. They are a source of much pleasure. Every flower-lover should try a bed of them.—Mrs. M. S. Lowell, Macomb Co., Mich.

CHOICE GARDEN CARNATIONS.

Perennial Cosmos, Pyrethrum.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

A first-class perennial, lasting for years. Plants grow two feet high, with beautiful, fine-cut foliage and long-stemmed Cosmos-like flowers of colors ranging from white to deep crimson. They bloom freely during June and July, and are very showy in groups or beds. Special mixture, single and double, choicest hybrids, 4 packets 10 cents, 1 packet 3 cents.

Dear Mr. Park:—Choice among my perennial plants are several clumps of your Perennial Cosmos, Pyrethrum. Those of white, rose, crimson and scarlet are brilliantly and delicately colored, and borne upon long stems. The foliage is scarcely less lovely than the flowers. The seeds readily germinate, and to insure blossoms the first year, should be started in the house, and when the ground is warm transplanted to a rich, sunny border, where they will bloom in mid-summer, and continue to flower from year to year, requiring no petting to insure their well-doing.—Helen Watts McVey, Wright Co., Mo., Nov. 30, 1901.

PYRETHRUM—PER. COSMOS.

Gypsophila Paniculata.

Price, 4 packets 10 cents, 1 packet 3 cents.

This is not a showy plant in the garden, as its flowers are small, and borne upon delicate, wiry stems, but when the airy sprays are cut and intermingled with other flowers the effect is charming. The plant is hardy, and of easy culture. If you give this perennial a trial you will never care to be without it afterward. It is two feet high, bushy, and blooms all summer. 4 packet 10 cents, 1 packet 3 cents.

Mr. Park:—If any of your patrons do not have Gypsophila paniculata, I would advise them to get seeds in the spring. Once started it is there to stay, standing all kinds of exposure and drought. No garden is complete without it. Nothing can take its place for decoration in cut flowers, and if cut when the flowers first open they can be kept all winter, and make up beautifully with your Everlastings, or can be used alone. Try a bouquet of Sweet Peas and Gypsophila. It thrives in any good garden soil kept free from weeds.—M. J. Acly, Fergus Co., Mont., Dec. 2, 1901.

HOLLYHOCK—NEW ALLEGHANY.

Alleghany Hollyhocks.

Splendid mixture, all shades, 4 packets 10 cents, 1 packet 3 cents.

These are superb garden flowers, surpassing all other Hollyhocks in size and attractiveness. The plants grow five feet high, have handsome foliage, and bloom freely for several months. The flowers are very large and double, and of the richest shades, the petals fringed and frilled in the most attractive manner. Started early some of the plants will bloom the first season.

Light apricot.....	5	Cherry red.....	5	Yellowish white.....	5
Peach.....	5	Purplish lilac.....	5	on purple ground.....	5

Special mixture, all sorts, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park:—My Hollyhocks from the seeds purchased of you grew ten feet high. The flowers were beautifully fringed, many as large as saucers. At a distance they appeared like Roses. I can recommend them.—J. Smallridge, Boyd Co., Ky., Dec. 1, 1901

Linum Perenne.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

The Perennial Linum or Flax is one of the most beautiful of hardy perennials. Massed together the plants are showy, bearing myriads of bright blue, white and rose-colored flowers every day during nearly the entire season. They self-sow, and once started the bed will take care of itself. It is a perennial I can confidently recommend.

Blue.....	5	Rose.....	5
White.....	5	Special mixture, 4 pkts. 10c., 1 pkt 3	

Mr. Park:—I received from you a packet of Linum perenne, and was delighted with both plants and flowers. The former grew a foot high, were of graceful habit, and densely clothed with delicate, narrow leaves, very beautiful. At first the flowers were not numerous, but as fast as one faded two buds opened, until the whole bed was like a big bouquet.—Mrs. J. J. Kinus, Jefferson Co., Kas., Dec. 27, 1901.

Choice Perennial Poppies.

Special Mixture of all varieties, 4 pkts. 10 cents, 1 pkt. 3 cents.

ORIENTAL POPPIES.

White, yellow and scarlet, single, mixed..... 5 | White, yellow and scarlet, double, mixed..... 5
Iceland Poppies in splendid mixture, 4 packets 10 cents, 1 packet..... 3

Dear Mr. Park:—The bed of Oriental Poppies, grown from a packet of seeds obtained from you, was the glory of my garden, and excited liveliest admiration from all who saw it. The flowers were very large, of fine texture, borne upon long stems, and of the loveliest shades. Everyone should have these Poppies, as they are so easily raised from the seeds you send out.—Helen Watts McVey, Wright Co., Mo., Nov. 14, 1901.

Perennial Phlox.

Finest Mixture, 4 packets 10 cents, 1 packet 3 cents.

No perennial collection should be without a few clumps of the beautiful Perennial Phlox. The plants are entirely hardy, bloom freely for a long time, and the panicles of bloom show many rich colors. The seeds require several weeks to start, but germinate well if given sufficient time. Finest mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

Mr. Park—Why don't every flower cultivator have a bed of Perennial Phlox. No more useful or showy perennial grows. There are so many beautiful colors, shades of pink and crimson, crimson with white eye, white with crimson eye, and pure white. The clusters are sometimes as large as saucers, and the flowers have a delightful fragrance.—M. J. Acly, Fergus Co., Mont., Dec. 2, 1901.

Perennial Peas.

Hardy, lasting and very showy perennial vines. Bloom all season, if freely cut. Scarlet, white and rose, mixed, 4 packets 10 cents, 1 packet 3 cts.

The Perennial Poppies are exceedingly showy and beautiful flowers, and are easily grown from seeds. Plants of the Oriental section grow two or three feet high, have massive cut foliage, and flowers six to twelve inches in diameter, of the most gorgeous colors—shades of scarlet, pink and white. The Iceland Poppies (P. Nudicaule), are fine yellow, as well as other shades. They are handsome, but of modest size and growth. All are hardy, and will endure severe winters. The Oriental sorts increase in beauty for many years.

FOR THE WINDOW.

Special mixture of many kinds, 3 pkts. 25 cents, 1 pkt. 10 cents.

Many of our choice decorative and flowering pot plants are easily grown from seeds, and this means of supply is not only economical, but a source of much pleasure. Asparagus, Grevillea, Smilax, Cinerarias and Primroses are all propagated chiefly from seeds, and often the choicest new shades and variegations in Carnations, Coleus, Geraniums and Gloxinias are obtained from seedlings. I offer the choicest seeds of window plants at prices that cannot but popularize this method of supply. Cultural directions always accompany the seeds. Always include a few varieties of window garden seeds in your order.

Asparagus, Decorative.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

The new species of Asparagus are justly placed at the head of the list of window plants. They are of easy culture, and their graceful habit and plummy foliage never fail to please. My seeds are of the best quality, and my special mixture contains seeds of all the sorts offered.

Plumosus nanus, see engraving 5 | Sprenger, exquisite for vases 5
Acutifolius, handsome foliage 5 | Verticillatus, a hardy vine... 5
Special mixture, all sorts, 4 packets 10 cents, 1 packet..... 3

Mr. Park:—The choicest specimen among my house plants is a fine plant of Asparagus plumosus, little more than a year and a half old. It throws up long, graceful whips, three and four at a time, which soon put out the deep green, filmy foliage. Each branch extends fully a yard and a quarter, and some have measured nearly five feet. Festooned around a trellis with lace curtains behind it is indeed a thing of beauty.—Jennie M. Mason, Hancock Co., Maine.

Mr. Park:—Asparagus Sprenger is certainly one of the handsomest evergreen basket plants for the house that I have had any experience with. Fine for bouquets, wreaths and all kinds of floral decorations.—Ida McMorris, Hickman Co., Ky., Nov. 21, 1901.

ASPARAGUS PLUMOSUS.

Choice Begonias.

Finest mixture, all sorts, 4 pkts. 10 cents, 1 pkt. 3 cents.

Begonias have dust-like seeds—so fine the eye cannot discern their form, but they start readily, and the plants are of easy culture in the hands of the careful amateur. The plants from a good mixture are in great variety, and are very interesting to grow, being always chaste and beautiful in both foliage and flowers. My seeds are of the finest quality, and will yield first-class plants and flowers.

Calceolaria Hybrida.

Large-flowered, special mixture, 4 packets 10 cents, 1 packet 3 cents.

CALCEOLARIA HYBRIDA.

time when they will begin to bloom.—Mrs. A. H. Pierson, Tompkins Co., N. Y., Nov. 11, 1901.

These are among the most beautiful and attractive of window plants. They start readily from seeds, and begin to bloom in about ten months from the time the seeds are sown. The flowers are borne in large clusters, are of many shades, mostly blotched, striped or spotted, and the blooming period extends throughout the late winter and early spring months, when the seeds are started in the spring. The plants like a cool, moist atmosphere in summer, and moderate heat in winter while blooming. The seeds I offer are very superior.

Large-flowered Tigred and Spotted.....	5	Painted and margined 5
Self-colored, mixed.....	5	Fancy striped..... 5
Special mixture of all varieties, 4 pkts. 10 cts., 1 pkt 3		New Dwarf, mixed..... 5

Mr. Park:—I raised a dozen Calceolarias from the seeds I purchased of you. They are all growing finely, and I am looking forward with pleasure to the

Winter-blooming Carnations.

Finest mixed, 4 pkts. 10 cts., 1 pkt. 3 cts.

I offer seeds of a new class of Carnations which are specially well adapted for winter blooming in the window. The plants are started from seeds in the spring, bedded in a sunny bed, and kept pinched back during summer, and potted, watered and shaded about September 1st, then placed in the window. They will soon begin to bloom, the flowers being large, double, richly scented, and of lovely colors, as rose, crimson, white, striped, yellow, etc. The plants are hardy, may be left out if desired, and will bloom freely in the garden the next season.

Mr. Park:—Your Carnations are fine for winter blooming. I keep the plants well pinched back all summer, and they grow bushy, and bloom fine in winter. They like a rich, rather heavy garden soil. Water moderately, and give plenty of sun and air in the window garden. If this is neglected they are apt to grow spindling.—Mrs. G. Haepner, Culman Co., Ala., Dec. 2, 1901.

WINTER-BLOOMING CARNATION.

Large-flowered Cinerarias.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

Cinerarias are gorgeous and beautiful pot plants. No window flower is more attractive. The plants are easily raised from seeds, and bloom in nine or ten months from time of sowing. The plants like a cool, partial shade in summer, and chopped tobacco stems should be kept upon the soil beneath the plants to prevent Aphis. Shift into larger pots as the plants grow, otherwise they are liable to become stunted. If possible syringe occasionally with water slightly warmer than the hand will bear! My seeds are of the finest large-flowered European strains.

Large-flowered white.....	5	Azure blue.....	5
Rich crimson.....	5	Deep blood red.....	5
Ringed and variegated.....	5	Dwarf mixed.....	5
Stellata, a free-blooming sort with star-like flowers of various colors; mixed.....	5		
All varieties, special mixture, 4 packets 10 cents, 1 packet .	3		

Mr. Park:—I raised fine plants from your seeds of Cineraria. They bloomed in the winter, and were beautiful. They were the first Cinerarias I had seen, and I was much pleased with them. The plants last a long time in bloom.—Mrs. F. B. Colton, Hartford Co., Conn., Nov. 22, 1901.

Mr. Park:—The Cinerarias I raised from your seeds were fine. I sowed them in May, and the following spring they blossomed, and were beautiful.—Mrs. Emma Peck, Shia. Co., Mich

CINERARIAS—LARGE-FLOWERED.

Chrysanthemum Japonicum large-flowered, double, the splendid varieties that elicit so much praise and admiration at the autumn shows. Superb mixture of all colors, first-class, saved from collection flowers, 4 packets 10 cents, 1 packet... 3

Coleus, Fancy Leaved.

Finest Mixture, all varieties, 4 packets 10 cents, 1 packet 3 cents.

Few persons know how easily Coleus plants can be raised from seeds. They are as readily started as Petunias, and quite as satisfactory. As bedding plants they are gorgeous, when tastefully grouped, and as pot specimens for the window garden few plants, even when in bloom are more attractive or more admired. My seeds are from the finest collections in Europe, and will give the best results.

Carmine, golden edge.....	5	Spotted and striped.....	5
Fringed-leaved.....	5	White-ground foliage.....	5
Shades of red.....	5	Yellow-colored foliage.....	5
All varieties in splendid mixture, 4 pkts. 10 cents, 1 pkt. 3			

Mr. Park:—I got a 3-cent packet of your Fancy Coleus seeds last spring, and such beautiful plants as I have! I gave lots of little plants away, and I have eighteen different ones now. Some are the broad, crinkled leaf, and some are smaller, but no two alike in shape or color. My plants are the envy of all who see them.—Essie M. Canon, Clayton Co., Iowa, Nov. 11, 1901.

Mr. Park:—I raised many beautiful varieties of Coleus seeds bought of you. I had lovely shades, from most delicate green to deep maroon. Anyone who desires a bed of showy plants cannot do better than buy Coleus seeds from you, and plant early.—J. W. Meng, Laf. Co., Mo., Aug. 1, 1901.

FANCY-LEAVED COLEUS.

Cyperus--Umbrella Plant.

Finest mixed, 4 packets 10 cents, 1 packet 3 cents.

This is one of the easiest grown of window plants, and very attractive. Seeds start readily, and the plants grow rapidly. Shift into larger pots occasionally, to prevent root-crowding and encourage vigor. Water liberally while growing. After blooming water sparingly and set the pot in a cool, retired place for a few weeks, then cut the tops off and repot. A good specimen is as graceful and handsome as a Palm, and more easily managed. The plants are aquatic, and will grow in boggy soil in water.

Alternifolius, the old sort, see engraving.....	5
Variegatis, dwarf, green and white foliage.....	5
Papyrus, very handsome sort.....	5
Special mixture, all varieties, 4 pkts. 10 cts., 1 pkt. 3	

Mr. Park:—I like the Cyperus or Umbrella Plant. Its graceful leaves are borne on long, slender, bright green stems, and are very attractive and decorative. It is of easy culture, and may be grown either in water or in soil.—Mrs. Caroline Winn., Clay Co., Ind., Nov. 8, 1901.

CYPERUS ALTERNIFOLIUS.

Giant-flowered Cyclamen.

Special mixture, all colors, 4 pkts. 10 cts., 1 pkt. 3 cts.

Cyclamen are always propagated from seeds, and the plants are of blooming size in from fifteen to eighteen months. Give them a resting period of a few weeks, but do not dry them off entirely at that time, as it destroys the fleshy roots. I offer seeds of an improved strain, the flowers being of mammoth size and richest colors. The plants bloom profusely in winter. Of easy culture.

Giganteum universum, white with red eye.....	8
Atro-rubrum, dark red.....	8
Roseum superbum, fine rose.....	8
Splendens, shining dark carmine.....	8
James Prize, sweet-scented.....	8
Mont Blanc, pure white.....	10
Brilliant, dark blood red.....	8
All varieties, special mixture, 4 pkts. 10 cts., 1 pkt. 3	
Papilio, new, seeds direct from raiser, pkt. of 3 seeds, 10	

Mr. Park:—The Cyclamen seeds purchased of you had excellent germinating qualities. The leaves are handsome, and I am expecting equally fine blossoms later. I have had Cyclamen seedlings bloom before a year old. Mrs. C. L. Whipple, Dutch Co., N. Y., Nov. 14, 1901.

Mr. Park:—From one 3-cent paper of your Cyclamen I raised eight fine plants.—Grace Owens, Will Co., Ill.

GIANT-FLOWERED CYCLAMEN.

Choice Zonale Geraniums.

Splendid mixture, 4 packets 10 cents, 1 packet 3 cents.

ZONALE GERANIUM.

The Zonale Geraniums are easily started from seeds, and if the seeds are of a fine strain the plants raised will offer produce extraordinary varieties, beautiful in both foliage and bloom. The plants come up in from two to six weeks, and bloom in from ten to fifteen months. Seedlings are always vigorous and healthy. Geraniums like a rich and sunny bed, and plenty of water during the growing season. The seeds I offer were grown by German specialists, and are unsurpassed. Splendid mixture, 4 packets 10 cents. 1 packet 3 cents.

MISCELLANEOUS GERANIUMS OR PELARGONIUMS.

Fancy Pelargoniums, mixed.....	5	Apple-scented Geranium.....	5
Rose-scented.....	10	Ivy-leaved, mixed.....	10
Golden Tricolor.....	10	Bronze-leaved.....	10

Mr. Park:—Geraniums are the most popular plants we have for bedding, and also for the window. We could not get along without them. Some of my plants were raised from your seeds, and the longer I have them the more I prize them. They bloom the whole year. In summer I have them outside, and in the winter in the house.—Mrs. A. Rieke, Renville Co., Minn., Dec. 4, 1901.

Mr. Park:—Tell your patrons if they want something really interesting to get a package of your Geranium seeds. I have never had anything to give such satisfaction for so little time and trouble. From two packages I have twenty-five or more plants.—Mrs. W. E. Sayle, Hunt Co., Tex., Nov. 8, 1901.

Gloxinia, New Giant Hybrids.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Many persons prefer to raise their Gloxinias from seeds. They germinate well, and the plants bloom in eight to twelve months from time of sowing. Nearly all of the finer Gloxinias are propagated from seeds. I supply choice seeds, producing plants vigorous and free-blooming, and flowers of immense size and fine colors.

Defiance, scarlet.....	10	Tigrina, rose, tigré.....	10
Emperor Frederick, scarlet, white border.....	10	Emperor William, blue, white margin.....	10
Pure white.....	10	Tigred and Spotted.....	10
Giant-flowered, special mixture, 4 packets 10 cents, 1 packet.....	3	Celestina crassifolia, blue.....	10

Mr. Park:—I got a paper of Gloxinia seeds of you last spring, and sowed them April 1st. I raised 15 plants. Some have bloomed. They are fine. One is velvety red, and one is ringed red and white. They are very large. I have plenty of chances to sell them, but I tell my friends that they can get seeds of Mr. Park.—Mary B. Real, Richland Co., O., Oct. 21, 1901.

Mr. Park:—My seedling Gloxinias gave me flowers the second year. I consider them the best of all summer-flowering porch plants. They repay one a thousand times for the little care that they require.—Mr. P. A. Dennis, Steuben Co., N. Y., Nov. 18, 1901.

GLOXINIA—HYBRIDA.

Grevillea Robusta.

Price, 4 packets 10 cents, 1 packet 3 cents.

Known as Silk Oak. A handsome decorative plant, of easy culture, with light green, deep-cut foliage. Readily started from seeds, and prized by many as a window or room plant. 4 pkts. 10 cts., 1 pkt. 3 cts.

Mr. Park:—My Grevillea robusta from your seed is a fine, graceful plant. I keep it in a jardiniere in the parlor for several weeks at a time. Dust and the dry air of a heated room do not trouble it.—F. C. Bryant, Queens Co., N. Y.

Mr. Park:—The Grevillea robusta is a plant I greatly admire. I find it very easy to manage. Good earth, plenty of rootroom, a warm room, and lots of water suits it. Never let it become dry. The foliage is finely cut, something like fern. It is a beautiful plant.—W. Lamb, Menice, Ontario, Can., Nov. 26, 1901.

GREVILLEA.

Heliotrope, New Bruant.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

The new large-flowered Heliotropes are fine for either beds or pots. The plants are vigorous, and bear freely numerous large clusters of fine flowers, the colors ranging from white to dark blue. They are readily grown from seeds.

Large-flowered, white in splendid variety.....	5
Large-flowered, violet in splendid variety.....	5
Large-flowered, light blue in splendid variety.....	5
Large-flowered, dark blue in splendid variety.....	5

Mr. Park:—Your new large-flowered Heliotropes are something extra fine. I succeeded in raising several beautiful specimens from half a packet of seeds. I am delighted with them.—Mrs. W. S. Lowell, Macomb Co., Mich.

HELIOTROPES—These are universal favorites for flower gardens. They may be raised from seeds, and bloom the same year. Sow early.—Flower Garden.

NEW BRUANT HELIOTROPE.

Helichrysum lanatum.....	10	Hibiscus Immutabilis.....	10	Lapageria rosea.....	10	Montbretia , sweet.....	5
Humea elegans.....	10	Mutabilis fl. pl.....	10	Linaria, mixed.....	5	Musa ensete, 1 seed.....	5

						Nertera depressa.....	10
						Nymphaea caerulea.....	5

Lantana, New Dwarf.

Splendid mixture, 4 packets 10 cents, 1 packet 3 cents.

The New Dwarf Lantanas are very desirable. The plants are low, compact and floriferous, and the flowers bright and showy, and produced in fine, large clusters. The plants are not difficult to raise from seeds, and seedlings are more robust in habit than plants grown from cuttings. The seeds are rather slow in starting, as the germs are enclosed in nutlets that are hard, and impervious to air and water at first. They should be given from three to eight weeks to germinate. My seeds are first-class, and will yield the finest plants and flowers.

New Dwarf Lantana, splendid mixture, 4 packets 10 cents, 1 packet..... 3
Old-fashioned Tall Lantana, red, 5 cts.; white, 5 cts.; mixed, 4 pkts. 10c., 1 pkt. 3

Dear Mr. Park:—No flower I ever cultivated has given me more satisfaction than Dwarf or Weeping Lantana. It blooms the year round, abundantly.—Mrs. Carrie Smith, Wapello Co., Iowa, Nov. 11, 1901.

Lantanas.—These are dwarf, shrubby plants that produce their flattened clusters of flowers in great profusion. The colors are white, yellow, pink, scarlet and crimson. In a greenhouse they will flower throughout the summer, and are also useful for bedding out. They need only ordinary soil.—Century Book of Gardening.

NEW DWARF LANTANA.

Fringed Chinese Primroses.

Complete Mixture, 4 packets 10 cents, 1 packet 3 cents.

The best of all winter-blooming plants for the ordinary room window is, without exception, the Fringed Chinese Primrose, in its various rich shades and colors. Any person can grow it. The plants start readily from seeds, germinating in about three weeks, and coming into bloom in from five to seven months. Plants started from seeds in the spring will bloom freely throughout the following winter. They will grow in either sun or shade, and thrive in any soil. In repotting avoid covering the crown with soil, and water regularly, never allowing the soil to become dry. As a rule they do better in the sitting room when grown in tin or iron receptacles. They like a rather cool, moist atmosphere. My seeds were raised by German and Italian specialists, and will produce the finest flowers, while I give my special care to the mixtures, that all the fine colors may be represented. Complete mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

CHINESE PRIMROSE.

Alba luteo, yellowish....	8	Erecta superba rubra....	8	Pulcherrima, pretty....	8	Rubra, red.....	8
Alba magnifica, white....	8	Golden Feather.....	8	*Punctata elegantiss'a	8	Rubra violacea.....	8

Solanum Seaforthianum.

4 packets 10 cents, 1 packet 3 cents.

SOLANUM SEAFORTHIANUM.

This is a beautiful flowering vine, easily grown from seeds. The flowers are blue, and borne freely in autumn the first season. May be grown either as a pot plant, or in the open ground. Include a packet of seeds of this handsome vine in your order. 4 pkts. 10 cts., 1 pkt. 3 cts.

Boston Smilax.

Price, 4 packets 10 cents, 1 packet 3 cents.

This is a lovely trellis vine for the window or conservatory. It will also climb a cord, making a graceful appearance. The foliage is delicate, shining green, and fine for cutting for designs or for personal adornment. Plants are very easily cultivated from seeds. The small clusters of flowers are deliciously fragrant, and are followed by bright scarlet berries. 4 packets 10 cents, 1 packet 3 cents.

Torenia Fournieri Speciosa.

Finest mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

The Torenia Fournieri has, for several years, been a popular pot and bedding plant. Its branches, forming a globular little bush, which is covered during the season with exquisite blue and lavender flowers. There are also other colors in the new, large-flowered varieties.

Tropæolum Lobbianum.

Finest mixture, oz. 20 cents, 4 packets 10 cents, 1 packet 3 cents.

Lobbs Climbing Nasturtiums are considered much handsomer and much more floriferous than the old-fashioned tall varieties. They are as easily grown from seeds, and certainly make a fine display either as pot plants or in a bed or border. I have very choice seeds, in all the fine varieties, and the mixture I supply includes all, being specially prepared. I heartily recommend these grand Nasturtiums.

SEEDS OF HARDY SHRUBS AND VINES.

Many shrubs are easily propagated from seeds, but it should be borne in mind that most shrub seeds require from a month to three or six months to start. Some even lie dormant for a year or more. Sow where the bed or box will not be disturbed till the seeds have time to germinate.

POPULAR MIXTURES OF FLOWER SEEDS.

Mixture of Annuals.—Contains chiefly seeds of flowers blooming the first season. The mixture embraces over 100 genera, and the average would perhaps be five species and varieties to each genus, thus representing fully 500 kinds. Price 10 cents per packet.

Mixture of Biennials and Perennials.—Contains seeds of more than 25 genera, and represents perhaps 50 species and varieties. Price 10 cents.

Mixture of Seeds for the Window Garden.—Contains seeds of more than 25 genera, and represents perhaps 125 species and varieties. 10 cents.

Mixture of Climbers.—Contains seeds of a dozen different genera, about 50 varieties. Price 10 cts.

Mixture of Everlastings and Grasses.—Contains seeds of the leading flowers and grasses used for drying for winter bouquets. Price 10 cents.

Mixture of Fragrant Flowers.—Contains seeds of more than a dozen genera, representing about 50 kinds of our most fragrant flowers. Price 10 cents.

Mixture of Edging Plants.—Contains seeds of about a dozen genera of low-growing flowers, suitable for edging beds. There are 50 or more species and varieties represented in this mixture. Price 10 cts.

Mixture of White Flowers.—These are excellent where a moonlight display of flowers is desired. They are also suitable for graves. A good mixture of species and varieties. Price 10 cents.

Mixture of Nearly all Varieties.—This is what we advertise—a mixture of 1000 varieties and colors. Price 10 cents per packet. Those who secure this packet will be surprised at the wonderful variety of flowers to be obtained therefrom.

Choice Vegetable Seeds.

To favor my friends who wish a few Choice Vegetable Seeds, I keep and offer the following, all of the best varieties, and finest quality.

Asparagus, New Palmetto.

Per packet 3 cents, 4 packets 10 cents.

Asparagus is a delicious vegetable, and can be grown satisfactorily in the North as well as South. The young, vigorous shoots are used. They are usually boiled, seasoned, and then dressed with cream or butter. Seeds germinate readily, and the plants require a year or two to get established. The New Palmetto surpasses others in earliness, vigor, regularity and quality. 1 oz. drills 50 feet. Per oz. 5 cents, $\frac{1}{4}$ pound 15 cents, pound 50 cents.

Bean, Bush, Improved Golden.

Per packet 3 cents, 4 packets 10 cents.

This is a very superior Bush or Dwarf Bean, maturing for the table in five weeks from the time of germination. The seeds are large, of kidney shape, and are borne in long, broad, meaty, rich golden yellow pods, brittle, stringless, and without a tough lining, and of delicious flavor. A pint of seeds drills 50 feet. $\frac{1}{2}$ pint 12 cents, pint 20 cents, quart 33 cents. I can also supply Improved Golden Wax, Extra Early Refugee, and New Valentine Wax at same price; and also the Pole Beans, Early Golden Cluster and Early Homestead Cluster; Lima Beans, Jersey Extra Early, Hendersons Dwarf, $\frac{1}{2}$ pint 15 cents, pint 25 cents, quart 45 cents, per packet 5 cents.

Beet, Edmands Turnip Beet.

Edmand's Blood Turnip Beet is considered the best variety for general use, either for the family or for market. The flesh is very dark red, and extremely sweet and tender. Roots smooth, never coarse or woody in texture; matures early and keeps longer than any other sort. The best Beet in cultivation. Oz. 15 cents, $\frac{1}{4}$ pound 12 cents, pound 35 cents. I can also supply Early Bassano, Long Red and Golden Tankard at the same price.

Broccoli.

Per packet 3 cents, 4 packets 10 cents.

Large Early White, a kind of cabbage; heads white, compact; one of the most reliable. Ounce 40 cents, 4 packets 10 cents, 1 packet 3 cents.

Brussels Sprouts.

Per packet 3 cents, 4 packets 10 cents.

A "cabbage" with small heads thickly set along the stem; very tender and good; oz 15c, 4 pkts 10c, 1 pkt 3c.

Cabbage, Extra Early.

Per packet 3 cents, 4 packets 10 cents.

The earliest and most reliable of large early Cabbages is the Charleston Wakefield. Each plant will form a solid head, weighing from twelve to eighteen pounds. It surpasses the old Jersey Wakefield in size, and Winningstadt in earliness, and is the most desirable early Cabbage on the market. Ounce 12 cents, $\frac{1}{4}$ pound 40 cents, pound \$1.50.

Other varieties of Early Cabbage: Reedland Drumhead, Winningstadt and Early Dwarf Flat Dutch. 20 cents per oz., 4 packets 10 cents, 1 packet 3 cents.

Cabbage, Late Flat Dutch.

Per packet 3 cents, 4 packets 10 cents.

Of all garden crops the late Cabbage is perhaps the most important, and good seeds of a good variety are absolutely necessary. The Surehead Flat Dutch just fills the bill. Ounce 15 cents, $\frac{1}{4}$ pound 50 cents, pound \$2.00. Other varieties of choice late Cabbage: Market Gardeners' Large Drumhead, Large Surehead, Red Dutch for pickling. Ounce 20 cents, 4 packets 10 cents, 1 packet 3 cents.

Carrot, Early Scarlet Horn.

Pkt. 3 cts., 4 pkts. 10 cts.

This splendid Carrot, fairly represented in the engraving, is unquestionably the most desirable variety for the family garden. It thrives in almost any soil, matures quickly, is smooth and of fine shape, rich orange scarlet in color, fine in texture, of excellent flavor, and very productive. Properly cooked and served this Carrot is appreciated, and is a favorite dish after its flavor becomes familiar. One ounce drills 100 feet. Per oz. 5 cents, $\frac{1}{4}$ pound 15 cents, per pound 50 cents. Other varieties at same price: Oxheart or Guerande and Large Long Orange. Sow early in rows a foot apart, and thin till the plants are a foot apart. Keep the ground well cultivated.

Celery, Giant Paschal.

Per packet 3 cents, 4 packets 10 cents.

The best variety of Celery for general culture yet introduced is the Giant Paschal, which originated from the Golden Self-blanching Celery, and possesses all the merits of that superb variety, with the addition of larger size and longer keeping. Its beautiful silvery stalks are solid, stringless, crisp and tender, and have a rich, nutty flavor. This is one of the most handsome varieties of Celery, and the most productive and profitable. 1 ounce drills 100 feet of row. Oz. 10 cents, $\frac{1}{4}$ pound 30 cents, pound \$1.00.

Corn, Country Gentleman.

Per packet 3 cents, 4 packets 10 cents.

Surpassing all other varieties of Sweet Corn we have the Country Gentleman. It is tender, sweet and delicious, possessing a rich flavor that is not uniformly found in any other variety. The kernels are rounded, irregular, very long, always well-filled and retain their milky state in perfect condition for use longer than any other Sweet Corn. The stalks grow six feet high, and every stalk bears from two to three fine, well-developed ears, coming into use early, and desirable for canning or drying, as well as for immediate use. By several plantings you can have Sweet Corn of the finest quality throughout the season, and all you want for drying. Pint plants 100 hills, 8 quarts an acre. Half pint 15 cents, pint 20 cents, quart 30 cents; bushel (by express, not prepaid) \$3. Other sorts: Early Corry, Landreth's Sugar, and Stowell's Evergreen. Price, per packet, 5 cents, $\frac{1}{2}$ pint 10 cents, 1 pint 15 cents, 1 quart 25 cents.

Cucumber, Improved White Spine.

Per packet 3 cents, 4 packets 10 cents.

The fruit of this variety is of medium size, handsome in appearance, early, very prolific, and unequalled for either slicing or pickling. For small pickles this variety is of surpassing value; cut early, and often. 1 ounce plants 50 hills. Per ounce 5 cts., $\frac{1}{4}$ lb. 15 cts., lb. 60 cts. Other varieties same price: Jersey Pickle, Green Prolific Pickle, Long Green.

Egg Plant, Improved Thornless.

Per packet 3 cents, 4 packets 10 cents.

The large, handsome purple fruits of the Egg Plant are very palatable when sliced and fried. The new Improved Thornless is the best, the fruits being of large size and a beautiful purple. Don't buy inferior Egg Plant seeds. Ounce 35 cents, one-fourth pound \$1.

Kohl Rabi.

Pkt. 3c., 4 pkts. 10c.

This is a delicious vegetable partaking of the qualities of the Cabbage and Turnip. The plant is of easy growth, very productive, and should be cultivated in the same way as the Rutabaga Turnip. 1 oz. drills 300 feet. Per ounce 10 cents, $\frac{1}{4}$ lb. 35 cents, pound \$1.25.

Lettuce, Improved Hanson.**Per packet 3 cents, 4 packets 10 cents.**

This is a very superior Lettuce, coming early, and continuing tender and usable longer than any other sort. The leaves are beautifully curled and crinkled, rich greenish golden yellow, densely arranged, and devoid of the unpleasant bitterness of most sorts. Per ounce 8 cents, $\frac{1}{4}$ lb. 25 cents, per lb. 75 cents. Other varieties, same price: New York, Boston Market. Also, at \$1.00 per lb.: Golden Queen, Perfected Salamander, Big Boston.

Muskmelon, Emerald Gem.**Per packet 3 cents, 4 packets 10 cents.**

This is the best Muskmelon for the family garden. The melons are not large, but the vines are hardy and prolific, as easily grown as a Cucumber, and every melon will ripen sweet and delicious. Per oz. 5 cents, $\frac{1}{4}$ lb. 15 cents, per lb. 50 cents. Other varieties, same price: Jennie Lind, very early; Extra Early Hackensack; Banquet; Acme.

**Watermelon, Phinney's Early.****Per packet 3 cents, 4 packets 10 cents.**

An early-maturing sort, does well in any sunny garden, North or South. The Improved Phinney's early which I offer is doubtless the best of early Watermelons for the family garden, being sweet, and sure to produce a crop. 1 ounce plants one hundred hills. Per oz. 5 cents, $\frac{1}{4}$ lb. 18 cents, lb. 60 cents. Other varieties, same price: Fordhook, Dixie.

Onion, Wethersfield, Early Red.**Per packet 3 cents, 4 packets 10 cents.**

This is a superior Onion that matures early, yielding large, solid, mild-flavored bulbs that keep well till Onions come again. It produces large bulbs from seeds the first season when sown early, thinned and cultivated. For sets sow thickly. There are many strains of Wethersfield Onion, but the one I offer is the earliest and best. Avoid late, inferior strains. 1 ounce drills 150 feet. Per ounce 10 cents, $\frac{1}{4}$ pound 35 cents, per pound \$1.25.

**Parsnip, Improved Sugar.****Per packet 3 cents, 4 packets 10 cents.**

This is not the old-fashioned, long, slim, late Parsnip, but a greatly improved variety, large, thick, short, early maturing, of fine texture and very sweet. It is unexcelled, and always satisfactory. The seeds offered are fresh, and can be depended upon for a fine crop. 1 oz. drills 200 feet. Per oz. 5 cents, $\frac{1}{4}$ lb. 10 cents, pound 40 cents.

Pea, Extra Early Premium Gem.**Per packet 3 cents, 4 packets 10 cents.**

This is a decidedly improved variety of McLean's Little Gem, earlier, more compact and productive, with larger pods. It grows 15 inches high and does not require bushing. The peas are green, wrinkled, very sweet, and deliciously flavored. For either the family or market garden there is nothing better, its easy culture, productiveness and high quality commending it to all. 1 pint drills 40 feet. $\frac{1}{2}$ pint 12 cents, pint 20 cents, quart 35 cents. Other varieties: Improved Extra Early, McLean's Little Gem, Champion of England, 1 packet 5 cents, $\frac{1}{2}$ pint 15 cents, 1 pint 25 cents, 1 quart 40 cents, by mail, post-paid.

Radish, Choice Mixture.**Per packet 3 cents, 4 packets 10 cents.**

For the family garden a mixture of early, medium and late sorts is most satisfactory, as the Radish bed will thus supply the table throughout the season. I offer a first-class mixture of the best sorts, that will be sure to please all who may purchase it. The mixture embraces a preponderance of the choicest early Radishes, with a fair proportion of the summer, fall and winter sorts. One ounce will drill 18 feet. Per oz. 5 cents, $\frac{1}{4}$ lb. 15 cents, lb. 50 cents.

Varieties, same price: Early Long Scarlet, White-tipped Scarlet, White Turnip, Early Deep Scarlet, Carmine Olive, Early Round Deep Red, French Breakfast, Cincinnati Market, Chinese Rose Winter, Chatter, White Vienna.

Salsify or Oyster Plant.**Per packet 3 cents, 4 packets 10 cents.**

An easily-grown plant that deserves more attention. Treat as the Parsnip. Makes a delicious soup, or may be par-boiled and fried. Should be in every garden. Ours is an improved, large-rooted sort. 1 oz. drills 75 feet. Sow early, or in fall. Oz. 8c., $\frac{1}{4}$ lb. 30c., lb. \$1.00.

Spinach, Ever-ready.**Per packet 3 cents, 4 packets 10 cents.**

The best all-round Spinach, as early as any, and keeps in cutting condition three weeks longer than the latest. Boiled and dressed with vinegar and sugar it is a delicious vegetable. 1 oz. for 18 feet. Per ounce 5 cents, $\frac{1}{4}$ lb. 10 cents, lb. 35 cents.

Squash, Delicata.**Per packet 3 cents, 4 packets 10 cents.**

This is a new sort, not of large size, but exceedingly productive and very early. The seed cavities are small, and the thick flesh cooks dry, and is rich, sweet and delicious. It is the best for either summer or winter, easily grown, and is considered a good-keeping squash. 1 ounce plants 30 hills. Ounce 25 cents, $\frac{1}{4}$ lb. 75 cents, lb. \$2.25. Other sorts, same price: Early White Bush, Improved Golden Crookneck, Hubbard, Mammoth Chili, Winter Crookneck.

Tomato, Improved Beauty.**Per packet 3 cents, 4 packets 10 cents.**

The Improved Beauty is doubtless the best early tomato. The purplish-scarlet fruit is large, smooth, of perfect shape, solid, has but few seeds, does not rot or crack, ripens early and evenly, and is without a green core. In quality it is unsurpassed. Very productive, bears throughout the season, and ships and keeps well.

A Tomato that is almost perfect in every respect. 1 oz. for 1500 plants. $\frac{1}{4}$ lb. for an acre. Per oz. 15 cents, $\frac{1}{4}$ lb. 50 cents, 1 lb. \$1.75. Other sorts, same price: Atlantic Prize, Improved Stone, Livingston's Favorite, Ten Ton. Also, Golden Trophy, Ponderosa, and Yellow Pear-shaped Pickle, 4 packets 10 cents, 1 pkt. 3 cents, oz. 35 cents, $\frac{1}{4}$ lb. \$1.00, lb. \$3.75.

Turnip, Purple-top Strap-leaf.**Per packet 3 cents, 4 packets 10 cents.**

This is considered the best Turnip for general use. It is of fine form, very productive, matures quickly, is solid, sweet, and rarely bitter in taste, even when matured during the warm autumn weather. An oz. of seeds drills 100 feet. 4 lbs. will sow an acre. Keeps well till spring. 1 oz. 5 cents, $\frac{1}{4}$ lb. 15 cents, lb. 50 cts. Other sorts, same price: Early White Dutch, Amber Globe, Large Early Red-top Globe, Golden Ball, White Stone, Excelsior Ituta Baga or Swede.

I can also supply Large Globe Artichoke, Cauliflower, Chicory, Cress, Kale, Leek, Okra, Pepper, Parsley, Cardoon, Celanders, Chervil, Corn Salad, Endive, Mustard, Rhubarb, each, 4 pkts. 10 cts., 1 pkt. 3 cts.

Lawn Grass.

I supply the finest quality of Blue Grass, re-cleaned, at 25 cents per pound, prepaid. This makes the finest lawn, sowed alone. Address

CHOICE SUMMER-BLOOMING BULBS.

GIANT GLOXINIA.

GLADIOLUS.

LILY OF THE VALLEY.

Amaryllis, Aigberth Strain, the finest of Amaryllis; flowers like A. Johnsoni, but larger, and showing many rich colors and variegations, fine white to deep crimson. Each, large bulbs, 40 cents, per dozen \$4.00.

Johnsoni, the well-known sort, 35 cents each, \$3.50 per dozen, large bulbs.

Begonias, Giant Tuberous, white, scarlet, crimson, yellow and rose, each, 6 cents, or the collection, 5 sorts for 25 cents. Double, same colors, 20c. each.

I offer only the fine, large Belgian Bulbs, imported from a celebrated specialist at Ghent. They will produce the finest colored flowers of the largest size. There are none better. Give fibrous, sandy soil, protection from wind, and partial shade.

Caladium, Fancy, finest varieties, 20 cents each, \$2.00 per dozen.

These are very handsome as pot plants for the window or conservatory in the summer. Do not start them too early. Avoid chills.

Caladium esculentum, large bulbs, 15 cents each, \$1.50 per dozen. Small bulbs, 5 cents each, 50 cts. per dozen. A fine ornamental-leaved plant for summer. Likes shade and plenty of water.

Calla, Spotted, each 10 cents, per dozen \$1.00.

A handsome pot plant, or for a shady, moist bed. Foliage nicely spotted with white. Flowers shape of Calla, but smaller; white with purple center.

Canna, New Gladiolus-flowered, fine sorts, named, 10 cents each, \$1.00 per dozen.

Makes a showy bed when grouped in a sunny place. Water freely while growing. This is the secret of successful Canna culture.

Dicentra spectabilis, 15 cents each, \$1.50 per dozen. A hardy herbaceous plant, bearing long racemes of charming pink, heart-shaped flowers.

Double Dahlia, fine named varieties, white, rose, scarlet, crimson, purple, variegated, etc., 15 cents each, \$1.50 per dozen.

Among the most showy and beautiful of summer flowers; of exquisite form and texture, and very double.

Galtonia (Hyacinthus) Candicans, often called Giant Cape Hyacinth, 5 cents each, 50 cts. per dozen.

A hardy bulb, throwing up a huge flower scape, 3 feet high, in summer, bearing large, white, drooping flowers. Plant in a raised bed of sandy soil.

Gladiolus, French Hybrids, large bulbs, per hundred \$3.00, per dozen 50 cents, each 5 cents. Smaller, but blooming-sized bulbs, \$1.50 per hundred, 25 cents per dozen, 3 cents each.

I offer a very choice mixture of the best colors and varieties. Set six inches deep and as many inches apart they make a grand bed in summer. Fine also for cutting. The bulbs are as easily kept over winter as Potatoes. I can also furnish Child's choice hybrids, price \$1.00 per dozen, 10 cents each.

Gloxinias, Giant Belgian Hybrids, white, blue, red and spotted, 10 cents each, \$1.00 per dozen.

These are imported from a celebrated Belgian grower, and are fine large tubers of the finest European strains. They are magnificent summer flowers of easy culture. Grow in pots, in partial shade, and in a place sheltered from wind.

Lilium auratum, the gold-band Lily of Japan.

Large bulbs, selected, 20 cents each, \$2.00 per dozen. Smaller bulbs 12 cents each, \$1.25 per dozen.

The finest of Lilies, easily grown, and sure to bloom. Hardy, and will live and bloom for years.

Lilium Lancifolium, Rubrum, red, and Album, white. Large bulbs, 15 cents each, \$1.50 per dozen.

Lily of the Valley, 4 cents each, 6 for 20 cents, 35 cents per dozen.

Beautiful foliage and charming racemes of bells, white, deliciously fragrant. Fine for the cemetery. Hardy, will thrive in a dense shade. See engraving.

Madeira Vine, 5 cents each, 50 cents per dozen.

A beautiful, rapid-growing vine. Foliage massive, and in autumn smothered with deliciously scented flowers in graceful racemes.

Montbretia crocosmiflora, a Gladiolus-like plant, bearing spikes of bloom in summer and autumn. Requires the same care as Gladiolus. Five cents each, 50 cents per dozen.

Peonies, Chinese, pink, red, white and yellow, 15 cents each, \$1.50 per dozen.

Splendid large flowers. The plants are hardy, and increase in beauty from year to year. Very showy and beautiful.

Tigridias, 5 cents each, 50 cents per dozen. Colors, red, yellow and white. Large, showy, shell-like flowers, the center tigred or spotted. Grow a foot high, and a clump of them always shows flowers.

Tuberoses, Double, Excelsior Pearl, large bulbs, 4 cents each, 40 cents per dozen; smaller, but blooming-sized bulbs, 3 cents each, 25 cents per dozen. Spikes of double, exceedingly fragrant flowers in autumn. A favorite flower on account of its beauty and perfume. My bulbs are very fine, and sure to bloom. Potted in July they are winter-blooming.

Water Lily, white, fragrant; large roots, 20 cents each, \$2.00 per dozen. Flowers waxy, semi-double, sweet-scented. Grow in water. Hardy. A fine pond or tub plant.

All of the above can be depended upon for fine flowers. Any person can grow them, and the cultural instructions sent with them insure success. For other bulbs and plants see Park's Surprise List, issued in May, and Park's Bulb List, issued in August. Address

GEO. W. PARK,
Libonia, Franklin Co., Pa.

Siebold's New Japanese Primrose.

Mixed colors, 4 packets 10 cents, 1 packet 3 cents.

A splendid early spring-flowering hardy herbaceous Primrose. Produces lovely tufts of foliage, and clusters of showy flowers of various colors, borne on stems eight or ten inches high. Easily grown from seeds; likes a raised bed of fibrous, sandy loam, in a place sheltered by a wall or hedge, being sensitive to frigid, cutting winds. Rivals the Roman Hyacinth in earliness. A charming spring flower. Mixed colors, 4 packets 10 cents, 1 packet 3 cents.

Park's "All About Primroses", is a handsome booklet describing and offering the choicest Primroses. It is fully illustrated with a score of fine engravings. You should see it. Free to intending purchasers.

Park's Book of Novelties and Specialties.

KIND READER:—If you do not find what you want in this Guide, it may be offered in Park's Book of Novelties and Specialties, a superbly illustrated work issued in March. It tells all about the new and good things in Flowers, and gives much useful information. Send for it. Address
